IN THE BEE TO-DAY

WEATHER.

The local forecast for to-day is colder, cloudy. For Thursday, clearing in the early morning, colder; the temperature will probably fall to about zero or 5 degrees above by 10 p. m.

A storm developed here last night out of the chaotic and highly abnormal conditions, and is now moving off the Atlantic coast with its center at Washington and its western limit at Toledo. A cold wave is rapidly following on the clearing area west of Chicago. The temperature throughout Manitoba ranges from 6 to 18 degrees below zero. The zero line extends from lake Superior southward to Des Moines and Omaha and northwestward to Wyoming and Montana. The lowest temperature within the limits of the United States is 14 degrees below zero at Ft. Buford. The highest is 60 degrees at Jacksonville. Cold and settled weather may be looked for until Saturday.

The cold wave signal is displayed along the lower lakes to-day.

Forecast for western New York—Snow, northeast gales; slightly warmer.

For Ohio, Indiana, Illinois, Wisconsin and Michigan—Clearing; cold wave; northwest gales.

CHURCH AND STATE

Pope Leo Is Angry with Brazil.

The Separation Has Caused Him Trouble.

Hostile Action of the Vatican Expected.

President Peixotto to be Excommunicated.

The Case in Point Reviewed a Length—A Papal Ultimatum to Soon be Presented to the Brazilian Government.

Rome, Jan. 6.—It is rumored that the relations between the vatican and the Brazilian government are so strained that a rupture is imminent.

The pope, it is said, has intimated that he will excommunicate President Peixotto, his cabinet and the members of the Brazilian congress unless measures are taken to renew the former relations between church and state in Brazil.

The vatican has received numerous complaints from the Brazilian clergy of the disastrous effect upon church interests of the policy of separation adopted by the republic. It is said that many churches are without pastors, and the seminaries are being deserted because the government refuses to continue contributions for the maintenance of the clergy and of chairs in the seminaries.

The prelates and priests who were in ecclesiastical service at the time that connection between church and state was abolished are still nominally in receipt of salaries from the federal treasury; but when a bishop or priest retires or dies the salary is not continued to his successor, so that the death of a priest means the cessation of salary to his charge and perhaps the closing of a church. The Brazilian hierarchy did not at first feel the effect of the change, but as time progressed and salaries ceased the bishops have become alarmed.

Archbishop de Costa, primate of Brazil, has sent a statement of the facts and an earnest appeal for the assistance of the pope in restoring the church to its former place. In this the primate is sustained by the whole hierarchy. It is said on behalf of the ecclesiastics that there is no apparent prospect of voluntary support for the church. The people have been so long accustomed to the state church that they will not contribute to the maintenance of the new priests appointed without a state salary and thrown upon the people for support, and attempts to take contributions for the priests' salaries have generally failed.

Although the provincial governments are permitted by federal law to provide for the support of religion they have omitted to make any such provision, on the plea that if the church is to have public support the old system should continue. Bishop Count de Saint Agostinho, of Pernambuco, is among the most earnest of the prelates struggling for a restored establishment, and it is said that the determined attitude of the vatican is largely due to his influence.

It is reported that a papal ultimatum will be presented to the Brazilian government, and, if it is unfavorably received, it will be followed by excommunications. Among South Americans in Rome the opinion prevails that Brazil will not yield and that hostile action by the vatican will provoke retaliation and bring about a complete withdrawal of state support. This opinion is founded on the fact that the Brazilian clergy have generally sympathized with the deposed imperial family, and that some of them are charged with aiding to keep alive the sentiment in favor of restoring the empire.

BLAINE WILL NOT SPEAK.

He Will Keep Away from the Public at This Stage.

Washington, Jan. 6.—Secretary Blaine has finally made the positive statement that he cannot fulfill his engagement to speak at the dinner of the Boston Merchants' association Thursday evening.

The ill health of his wife is given as the reason for his inability to leave Washington at this time.

The secretary, however, has prepared a letter which will be taken to Boston and read at the dinner by W. E. Curtis, chief of the state department bureau of the American Republics.

Representative Burrows, of Michigan, has been pressed into service and will attend the dinner and speak on the subject of reciprocity.

An interesting feature of the dinner also will be the presence of Senor Pedro Montt, the Chilian minister, who may be prevailed upon to make some remarks on the general question of reciprocity.

A RAGING STORM.

Much Snow and Wind in the West.

Very Cold Weather Reported with the Heaviest Snow of the Season in three States.

Chicago, Jan. 6.—Dispatches from points throughout Illinois, Iowa, and Minnesota, report the heaviest snow storm of the season, the fall in most places being over six inches.

Intensely cold weather prevails in the northwest.

Forman, N. D., reports the worst storm of the season.

At Bristol, S. D., snow has been falling all day and a blizzard is sweeping the surrounding country.

Other dispatches from the Dakotas are of the same tenor.

Heavy Snow.

Bethlehem, Pa., Jan. 6.—At an early hour this morning a heavy snow storm, the first of the season, set in. Up to noon one foot has fallen. Electric road between Bethlehem and Allentown is blockaded and cars cannot be moved. The various railroads report exceedingly heavy snow and are preparing for blockades. There is good sleighing.

STUDENTS WILL WITHDRAW.

Tiffin, O., Jan. 6.—The 30 students of Heidelberg university who recently aided in organizing the Greek Letter fraternities without the consent of the faculty, have received notices requesting them to withdraw from the institution, and they will do so and will be accompanied by a considerable number of others.

IN A STORM.

Liverpool, Jan. 6.—The steamship Majestic, of the White Star line, arrived here without calling at Queenstown. She made that port in a gale of wind and therefore her commander, Capt. Parsall, decided to push right on to Liverpool. The Majestic left New York on December 29 for this port.

NORWALK NOTES.

Business and Personal Mention From the Maple City.

Norwalk, O., Jan. 6.—(Special)—Dr. D. W. Vail, postmaster this city, whose place will soon be vacant, has purchased a half interest in the Experiment News and has assumed the management. Now that Mr. Stewart is at Columbus, attending to his senatorial duties. Squire Redfurn, the old editor and proprietor of the Experiment has been anxious to get back into the editorial harness. He is seriously talking of starting another democratic weekly in this city to be called "The Norwalk Tocsin."

Prosecuting Attorney T. H. Kellogg, who has filled the office for the past six years, has been succeeded by J. K. McKnight, who took his office yesterday.

Chas. H. Rule, formerly with W. W. Redfield in the Experiment, is now successfully running a job printing establishment in Dakota.

Mr. and Mrs. John Kennan, who are now in this city, have received a telegram from their son, George Kennan, in which he said that he and his wife had arrived safely at New York from San Francisco via the isthmus. The two expect to be in Norwalk in a few days.

The body of Mr. Stephen Terry, father of Mrs. Lydia Cortrite, of this city, was brought here yesterday from Toledo for interment.

ON THE RETIRED LIST.

Washington, Jan. 6.—Brigadier General August V. Kautz has been placed on the retired list of the army on account of age, he having reached the limit for active duty. General Kautz is kindly remembered by many Ohio soldiers. Early in the war he was made colonel of the Second Ohio Cavalry, and won bright laurels for gallant and distinguished services.

OUT OF THE WRONG BOTTLE.

Celina, O., Jan. 6.—Two men, Henry Moorman and Amos Houser, went into the latter's drug store at Cold Water, near this place, to take a drink of liquor. They got hold of a bottle of carbolic acid. Each took a big drink. The drug soon began its deadly work. Houser will recover. Moorman, who lives about two miles from the town, was taken to his home before he was waited upon. There is, however, hope for his recovery.

A GREAT BORDER WAR.

Horses and Saddles Captured Without Difficulty.

United States Officer Killed by a Ficket.

Latest News From the Movements of Two Great Countries in an Attempt to Corner Garza's Marauders.

Rio Grande City, Tex., Jan. 6.—Corporal Rute, Third cavalry, who died on Monday from wounds inflicted by pickets of his own company, at Salino, was buried yesterday.

The following dispatch was received yesterady morning by the commanding officer from Havana, where a band of mounted Mexicans were reported to be encamped:

"A little after daylight this morning Capt McKay, with C troop, went into the Java pasture at the lower end. Capt. McNeil with his company went through the middle of it and with ten men and two deputies went into the upper part. Three revolutionists were chased by the rangers, but they escaped. I ran into a small camp and got six saddles and bridles, but the owners had just left. Capt. McKay and Capt. McNeil have already caught over seven horses. Several of the revolutionists crossed the river during the night, but in such haste as to leave a horse stuck in the mud and a saddle on the further side.

"LANGHORNE."

Badly Scattered.

San Antonio, Tex., Jan. 6.—A dispatch from Rio Grande City says that Capt. Thomas Garza, the deputy marshal who escaped during the Retinal fight, has come in and surrendered himself. The revolutionists are reported to be badly scattered.

AN AWFUL CRASH.

Full Speed Into a Waiting Train.

Six Men Killed and a Number Injured Because Somebody Blundered.

Jacksonville, Ill., Jan. 6.—A terrible collision occurred yesterday on the Wabash railroad at Aladdin, a small station east of Hannibal. Six men were killed outright, two probably fatally injured and many others badly hurt. The victims are:

A. S. Bouchard, engineer, killed outright.

James Wilson, engineer, killed.

Four Italian emigrant passengers, names unknown, killed and cremated.

Henry Warboys, fireman, of Springfield, fatally injured.

Ed. Conwell, fireman, not expected to live.

The trains were the eastbound and westbound cannonball trains. The eastbound train had the right of way and was waiting at Aladdin for another train, No. 41, to take the siding.

The night was foggy and Engineer Bouchard was not very well acquainted with the run and failed to stop at the switch but went rushing by into the station at a high rate of speed.

He was enable to see anything ahead of him, at least this is the supposition. The engines came together with a terrific crash and in an instant all was confusion.

To add to the horror of the scene both trains took fire, consuming the baggage and smoking cars and one chair car. The remainder of the cars were detached and saved.

The body of Bouchard was found pinned to the ground under his engine and his fireman was fatally injured.

Charles Wilson, the engineer of the eastbound train was buried in the wreck and his body has not yet been found.

His fireman was very severely injured but may recover. Besides the four Italian emegrants killed and cremated several more were wounded.

SENATOR BRICE'S BILL.

Washington, Jan. 6.—(Special.)—Senator Brice, of Ohio, has introduced a bill for the relief of Sarah K. McLean, of Ohio, widow of Nathaniel H. McLean. It provides that she receive the back pay and emoluments of major's rank, which, it is claimed, should have been allowed her husband from July 23, 1864, when he was dismissed the service, to the date of his reinstatement, March 3, 1875.

SNOW IN SCOTLAND.

London, Jan. 6.—There has been a heavy fall of snow in the North of Scotland. Travel by rail is considerably delayed, and the country roads are blocked with snow.

RAILROAD DEAL.

Boston, Jan. 6.—A private dispatch says Charles Parsons, ex-president of the Rome, Watertown & Ogdensburg railroad, has bought control of the New York & New England road.

PRESIDENT CAMPBELL.

Ohio's Governor at the Head of a Mining Company.

St. Paul, Minn., Jan. 6.—The Ohio Mining company was organized at Duluth Minn., to-day, with a capital stock of $1,000,000.

Its officers are Governor James E. Campbell, of Ohio, president; M. R. Baldwin, of Duluth, vice president; Dr. Fred Barrett, of Tower, secretary and treasurer.

Its incorporators are James E. Campbell, E. D. Sawyer, of Cleveland, for three terms sheriff of Cuyahoga county, and president of the Sonora Silver Mining company, one of the largest concerns in Mexico; W. J. Hilands, a big Cleveland banker; C. F. Nestor, of West Virginia; S. R. Ainslee, general manager of the Wisconsin Central road; R. S. Munger, Dr. Fred Barrett, M. R. Baldwin, T. H. Presnell and J. K. Persons, all of Duluth.

ORDERED BACK TO MALTA.

London, Jan. 6.—Owing to the prevalence of sickness on board of her, and to the fact that her protective deck was seriously injured during a storm, while on a voyage recently from Malta to Salonica, H. M. S. Dreadnaught has been ordered back to Malta. Over 115 members of her crew are suffering seriously from influenza. The hospitals now contain the large majority of her officers and seamen.

FLOWER'S MESSAGE.

It Has Caused a Vast Amount of Comment.

Opposition Papers Have the Baseness to Insinuate That Senator Hill's Hand is Seen in it.

New York, Jan. 6.—The morning papers comment as follows on the first message of Gov. Flower to the legislature:

The World says: "Gov. Flower has begun his term with a message which is sound in spirit and in most of its recommendations."

The Morning Advertiser says: "Gov. Flower's recommendations to the legislature are worth while, especially those in reference to the local self government, the world's fair and the electrocution law. The legislature should not be slow in acting upon these sugestions."

The Press says: "The new governor has sent to the legislature an inaugural which is typical of the executive who signs it, but far more significant of the influences which have controlled it and the embarrassing circumstances under which it is delivered. In the production of saws and sophistries of Hillism, one finds here and there traces of vernal political freshness and evident desire to satisfy the people which show that the new governor has really touched the document up so as to give it some im press of his individuality."

STILL IN THE BALANCE.

Washington, Jan. 6.—The postoffice department has taken no action as yet toward the appointment of postmasters at Norwalk, Salem and Hiram. The commissions of all the present incumbents expired December 21. Hon. Vincent A. Taylor's recommendation of Wolverton for Norwalk still stands, notwithstanding the great pressure for General Loomis. No congressional recommendations have been made for Salem or Hiram. The postoffice name of Gann, Knox county, has been changed to Brink Haven.

MAKING DELEGATES.

Harrison Sends in More Appointments.

Names of Men Made Happy by Promotion in Ranks, or by Calls to Public Life.

Washington, Jan. 6.—The president to-day sent the following nominations to the senate:

Walter Wyman, of Missouri, to be supervising surgeon general of the marine hospital service.

John B. Hamilton, of Illinois, to be surgeon in the marine hospital service.

Arthur Carter, of Maryland, to be collector of customs for the district of Annapolis, Md.

Duncan A. McBeath to be postmaster at Snohomish, Wash.

Capt. Wm. B. Kennedy, Tenth cavalry, to be major; First Lieutenant Cyrus Ayres, Tenth cavalry, to be captain; Second Lieutenant Willard A. Holbrook, Tenth cavalry, to be first lieutenant; Major Henry C. Cook, Thirteenth infantry, to be lieutenant colonel; Capt. Aaron S. Daggett, Second infantry, to be major; First Lieutenant John Kinzie, Second infantry, to be captain; Second Lieutenant Wm. W. Wright, second infantry, to be first lieutenant; Joseph Alfred Guthrie, of Virginia; Charles Moore, Devalin, of the District of Columbia, and Henry La Monte, of New York, to be assistant surgeons in the navy.

THE COLOR LINE.

It Still Causes Trouble in the G. A. R.

Southern Posts Will Leave the Order Rather Than Obey the Commands of Its Officers.

New Orleans, Jan. 6.—From the present outlook the color line in the G. A. R. organization bids fair to cause the secession from the order of nearly every white member in the departments of Louisiana, Mississippi and Alabama.

The members of these local departments refused three years ago to recognize the order of Capt. Jacob Gray, department commander, calling upon them to attend the obsequies of Jefferson Davis. Piqued at the refusal of his comrades in arms to recognize his authority, Capt. Gray declared that if they would not march with white men they would be made to count steps with the "nigger."

He kept his word, and granted charters to nine colored posts, the membership of which exceeded that of the white organization. This caused a split in the department, the Gray faction holding a separate encampment and electing a distinct set of officers.

When the national encampment was held in Detroit the question of the admission of the negro posts was taken into consideration and the validity of their charters was established. About ten days ago the administration faction of the Hodges wing (white) met.

Rumor has it that the reason of the council meeting was to take action on the instructions from Commander-in-Chief Palmer, who has ordered that full recognition be accorded the colored posts in the annual encampment of February 10. This order will not be obeyed and the white posts will leave the order.

The colored G. A. R. men hold that in each of the nine white posts they have enough friends who, by obeying Palmer's orders, will prevent their charters from being declared forfeited. There are in the nine white posts 345 members, while in eight colored posts the roster shows 1,081 men.

WELCH MINERS AT WORK.

London, Jan. 6.—The majority of the Welch miners are now at work. The employers decline to engage any members of the federation who repudiate the sliding scale arrangement.

HERE'S THE NAMES

Of the Men Who Will Elect Sherman.

He Will Have Fifty-Five Sure Votes in Caucus,

And When the Time Comes May Have More.

Foraker Men Want a Secret Ballot,

While the Sherman Men Will Demand That Each Member Stand Up Like a Man and Declare Whom He Wants for United States Senator.

Columbus, O., Jan. 6.—The senatorial contest will end to-night.

The republican caucus will be held in the hall of the house at 8 o'clock. The headquarters of both Foraker and Sherman have been practically deserted by all except their managers and particular friends for several days—a fact which indicates the failing interest since it became generally conceded that Sherman would be nominated beyond a doubt.

The Sherman managers have added two more to their claims and now announce that Sherman will have in the caucus 58 votes, 15 from the senate and 43 in the house, and the easy feeling which prevails in the Sherman headquarters indicates that they are at least perfectly confident of Sherman's nomination by a safe majority, though they still refuse to give a list of the members who will vote for Senator Sherman.

Ex-Gov. Foraker's managers still claim his election, and there is no sign this morning that his name will not at least be placed before the caucus.

A leading Sherman man said to the United Press, however, that it was anticipated on the Sherman side that developments of to-day would induce Gov. Foraker to announce his withdrawal. If that is his intention, however, he is keeping it carefully concealed. A movement is on foot, evidently managed by the Foraker men, although they deny it, to hold a secret ballot.

The Sherman men stoutly oppose this, and thus indicate that they have pledges from sufficient members to elect Mr. Sherman.

The 15 senators who will vote for Mr. Sherman are: Abbott, Bain, F. G. Carpenter, J. Carpenter, Eckley, Green, Hildebrand, Lampson, Nichols, Ohl, Phillips, Snyder, Rawlings, Spencer and Iden—15.

The representatives who will vote for him are: Allaman, Brittain, Bloch, Camp, Clark, Clapp, Davis, Dodge, Doty, Fisher, Flickinger, Gallagher, Hale, Haynes, Haskell, Harlam, Heinlein, Hilcomb, Laylin, Martin, McElroy, Richards, Reeve, Southard, Thomas, D. D. Taylor, S. B. Taylor, S. N. Taylor, J. W. Willis, Wood, Allen, Axline, Dunn, Daugherty, Lutz, McCoy, Putney, T. C. Williams, Boxwell—39.

Porter, Dicks and Kessinger may also vote for Sherman.

This makes the 58 claimed by the Sherman men. It is quite certain that the first 55 members of the caucus named will vote for Sherman, and that will give him eight more votes than are necessary for a choice. The Sherman men are demanding, not only that the caucus be open, but that the vote for senatorial nominee be viva voce, so that each man place himself on record with his vote.

Foraker's friends are mad at the duplicity of many members of the general assembly, and say he has been defeated by treachery in his own party. His followers are now in no mood to be trifled with, as a majority of all the young republicans of this state are with him in this fight and the threats made by those close to him has caused alarm among those who are laying wires for the next convention and the officers.

In fact one of them stated openly this noon, in the corridor of the Neil house, that it would be d—d warm for the federal office bulldozers in the future.

SHOT BY A TEACHER.

Murderous Revenge of Charles Spangler, Near Findlay, O.

Findlay, O., Jan. 6.—Word was received in this city of a shooting affair which took place in Eagle township, this county.

Charles Spangler, a school teacher, was met on the school ground in the morning by John Denhart, who had come to get satisfaction from the teacher on account of the latter having punished his (Denhart's) brother the day before.

A few words were indulged in, when Spangler drew a revolver and shot Denhart in the breast, the bullet lodging in the lung. His injury will result fatally. Spangler has not as yet been placed under arrest.

LOST WITH ALL HANDS.

London, Jan. 6.—There is no longer any doubt that the British steamship Cavalier has been lost with all hands.

The bodies of the second officer and of the steward of that vessel have been washed ashore along the Cornish coast; several days ago a boat marked Cavalier was picked up off the Scilly islands.

The Cavalier left Gibraltar on December 8 for Falmouth.

WANTS DAMAGES.

San Francisco, Jan. 6.—Papers have been forwarded to Secretary Blaine for a claim against Chili, for $50,000, by Patrick Sheilds, fireman on the steamer Keweenaw, who was maltreated by a Chilian mob.

HAYNES IS AT WORK.

Toledo Public Building Bill Introduced.

A Bill for the Erection of a Monument to Perry at Put-in-Bay—Elections of United States Senators.

Washington, Jan. 6.—(Special)—Congressman Haynes has introduced a bill providing for the alterations of the Toledo public building and for the erection of a building at Fremont, also for the erection of the Perry monument at Put-in-bay and one to make Sandusky an appraisement port.

There is little possibility of passing bills making appropriations, as the cry will be retrenchment.

The colonel, however, will push the Toledo bill as the improvements suggested are deemed absolutely necessary.

Mr. Caldwell says he will try all honorable means to secure the passage of his resolution providing for the election of United States senators by the popular vote.

An oak chair, made from the printing press on which the original Kilmarnock edition of Burns' poems was printed in 1786, has just been given to the Burns Cottage at Ayr, though 35 years old.

THE GRIND AT COLUMBUS

Columbus Ripper Bill Causing Trouble.

Republicans Are Opposed to the Measure.

Taylor, of Champaign, to be Chairman of the House Committee on Finance—General Capital Gossip.

Columbus, Jan. 6.—(Special)—The republicans are not united on the Columbus ripper bill and many men in the party pronounce against it and claim it is a fraud of the first water.

The Dispatch says editorially:

The bill to reorganize Columbus which has been introduced in the general assembly under the claim that it is in accordance with the federal plan is a fraud. It is no more like the federal plan than a despotism is like a republic. It is the same old "ripper" plan of governing cities, gotten up by a republican ring to take the place of one created by a democratic ring. It is not government by the people, but a bold scheme to sail into power under false pretenses and ought to be defeated.

Bill For Relief.

Mr. Aldrich had a bill passed under a suspension of the rules to relieve Peter Speldaner, the treasurer of Scott township, Sandusky county, for the payment of $1,900, which he lost. The trustees will submit the question to the electors of the township.

Soldiers' Monument.

Representative Daugherty had a bill passed authorizing Fayette county to spend $12,000 for a soldiers' monument.

Penitentiary Bill.

Mr. Daugherty has introduced a bill to reorganize the Ohio Penitentiary by turning out the present management. The bill provides that two of the five managers shall be practical mechanics, but as the board has always had practical men on it this phraseology is meaningless. They shall hold office for one, two, three, four and five years. The salaries of the board of managers will remain as at present, but at the first meeting of the board a warden shall be appointed, who, with the advice and consent of the board shall appoint the following officers with salaries as stated: deputy warden, $1,200 per year; clerk, $1,000; secretary of the board, $1,500 per year; assistant clerk, $1,000 per year; steward, $1,200 per year; physician, $1,200 per year; assistant deputy warden, $1,000 per year; superintendent, $75 per month; male guards, $65 per month; and female guards at $50 per month.

The warden is also authorized to provide for the moral and religious instruction of the convicts at the expense of $780 a year. All these officers are to serve two years unless removed for cause. The bill practically re-enacts the act providing for the government of the penitentiary which was passed in 1886.

In the Senate.

In the senate this morning Mr. Green introduced a bill giving laborers and material men protection when buildings are erected under contract, as it requires the contractor to give a bond equal to one-half contract price.

Several bills of local nature were introduced, after which the senate recessed to meet in joint convention with the house to canvass the vote cast last November for state officers, result of which is already known.

In the House.

Representative Ely introduced a bill in the house this morning amending section 16 of the Australian ballot law so that the blank space before the party name of each ticket shall be in the form of a circle; all other spaces in which to mark choice of candidates or questions submitted to the vote of the people shall be in the form of a square or rectangle.

Mr. Allaman, of Montgomery, introduced two reorganization bills this morning. One provides "that Dayton be reorganized by having police judge appointed by the governor and the former to appoint a non-partisan board of city affairs."

The second provides that the governor select a commission to redistrict the city into wards.

It is said that over thirty bills are now prepared and will be shortly dropped into the hopper to reorganize every city and state institution.

Many members say that this ripping up of city government and state institutions must stop.

Democratic Caucus.

The democratic members of the legislature met in the office of the governor at 11 o'clock this morning while the vote was being canvassed in the house, and Hon. James E. Neal, of Butler, chairman of the democratic state executive committee, was unanimously nominated for United States senator.

Every member was present except Price, of Hocking, who was selected to assist in the canvass of votes.

Senator Van Cleaf presided and Representative Reiter was selected as secretary.

The name of James E. Neal was presented by Senator Gear in a complimentary manner and seconded by Beard, of Ashland, who said he was sorry that he could not be elected, as Mr. Neal had all the qualifications required for the position, as well as being honest and popular at all times with all people.

Nomination was put to a vote and made unanimous amid cheers.

Representatives Reiter, Beard and Senator Gear were appointed a committee to inform Mr. Neal.

He was found at the Neil house and on his entrance was received with cheers. After being introduced he spoke as follows:

"Mr. Chairman, and Gentlemen of the Democratic caucus—

"I appear before you to return my sincere and heartfelt thanks for the honor you have conferred upon me.

"I say frankly that I appreciate the honor, although it may be an empty one, and coming from the democracy of the state, I appreciate it all the more.

"I am unable to say whether I will be elected (applause) but I can say that if the legislature sees fit (a voice: In its wisdom) in its wisdom, to choose me I will accept the situation."

In closing Mr. Neal again heartily thanked the members of the caucus.

Gov. Campbell made a few complimentary remarks in honor of the nominee as well as to thank the democrats of the legislature for their confidence in him.

Senator Van Cleaf will presen this name in the senate and Mr. McMaken will second the same, while Bruck will perform the same duty in the house, to be seconded by Goldrick, of Butler.

Notes.

The present force of porters in the house numbers fourteen—double the amount heretofore appointed.

A bill appropriating $51,000 for the expenses of the general assembly has passed both branches under suspension of the rules.

Taylor, of Champaign, will be chairman of the house committee on finance, as he was Speaker Laylin's manager during the speakership contest.

TOLEDO LOAN COMPANY.

The Toledo Loan company held their sixth annual election at the office of the company last evening, electing J. R. B. Ransom, E. C. Danforth, A. K. Detwiler, Chas. F. Peck, Thos. H. Tracy, John Turner, Milo Bashare, A. D. Stewart, and Ira B. Sessions as directors. The board organized by the selection of Mr. Ransom as president; E. C. Danforth, vice-president; A. K. Detwiler, secretary; C. F. Peck, treasurer, and T. H. Tracy, attorney.

The financial report of the company shows $269,195.42 invested in first-class securities, while the earnings of the company for the year amounted to $19,303.99, and dividends paid during the year amounted to $17,373.35, being 8 per cent. to all share holders and depositors entitled to the same. The receipts of the year were $200,608.63.

The Third street M. E. church was beautifully decorated for the wedding of Miss Emma L. Myers and Mr. George W. Chapman, which took place at 5 o'clock last night, as announced in yesterday's Bee. The bride was accompanied to the altar by Misses Hattie Valentine, Belle Barlow, Bessie Brownsberger and Daisy Farley. The groom's best men were relatives from Seattle. Rev. S. L. Roberts in impressive manner pronounced the words which made the twain one, after which at the church and at the home of the bride's mother, 649 Platt street, the young couple received the congratulations and good wishes of hosts of friends. They left last evening on a bridal tour which will end at their home, Seattle, Wash.

TAPPED THE WIRES,

Pool Rooms in the Country Suffer.

Estimated That a Hundred Thousand Dollars Was Got Away with Yesterday.

Wire tappers are abroad in the land and according to the best estimate that can be had over a hundred thousand dollars were taken out of the pool rooms in the country yesterday afternoon.

Nobody seems to have escaped and every board from Cleveland to the Pacific ocean was worked, Toledo contributing $1,000, to the genius and boldness of the operators.

The plan was the old one, of a "tapped wire" and had the scheme been carried out the winnings would have been much greater.

Something happened, however, and the operator who was intercepting the dispatches from Guttenburg and sending out bogus winners left his post before the game was half finished.

The scheme was to have men enter all the pool rooms in the country yesterday afternoon and play certain horses to win. Then the wire would be tapped and when the race news came along the real winner would be cut out and the bogus winner, which all the "tappers" had bet on, would be sent to the pool rooms. The real winners in the races yesterday and the slate the tappers had fixed up are as follows:

Straight,	Bogus.
Insight,	Congress,
Brooklyn,	Rosa G.
Ma Belle	Ma Belle.
Badger,	Wood Cutter,
Text,	Text,
John Hickey,	Glouster.

It will be seen that the bogus list was made by people well posted, for they picked Ma Belle and Text, who both won on merit.

Telegraphic information shows that nearly every pool board in the country, west of the Alleghanies, was fleeced and in many cases the slick gentlemen made themselves scarce before the rooms ascertained that they had been tricked.

BUSINESS FROM THE START

The World's Fair to Receive Attention.

Democrats Introduce the Enumeration Bill and Propose to Secure the Rights Belonging to Them

New York, Jan. 6.—(Special)—The democrats have introduced the enumeration bill and mean to lose no time, as the work must be done by March 2. Both houses adjourned to Tuesday night next.

In his annual message Gov. Flower calls attention to the need of a reapportionment of the state. In reference to the World's fair he says:

"The legislature has made no provision for the World's fair in Chicago next year. This sould be one of the first acts of your honorable body.

"The time is growing short for the erection of a suitable building for the exhibition of the state's interests, and if New York is to be represented commensurately with its commanding position and great resources speedy legislative action is necessary.

"This duty the state owes to its commercial and industrial interests. The provision for state representation and participation should be liberal, but not extravagant. Our citizens will not begrudge an appropriation of public money for this purpose which will enable the state to be properly represented, but they will disapprove any extravagant expenditure, and will insist that whatever appropriation is granted shall be wisely expended under competent direction."

THE INQUEST SATURDAY.

Coroner Beckwith viewed the body of Mr. Albrecht, the gentleman killed in a street car accident last night, and will hold his inquest at the court house next Saturday.

The deceased was a highly respected citizen, and belonged to nearly every German society in the city, in many of which he held offices of trust. The funeral will take place to-morrow, and will be largely attended.

Ask your grocer for Taylor's flour.

The receipts of The People's Savings, Loan & Building Co. during the last week were over Thirteen Thousand Dollars.

CONCERT IN PROSPECT.

Some time next week, date not yet fixed, the Central Congregational choir will give a concert for the benefit of the church, managed by Mr. C. L. Lewis. A young lady violinist from Detroit and Miss Nellie Goodwin are two of the artists who will appear.

TOLEDO SALESMEN.

At the regular meeting of the T. S. A. on Tuesday evening, Jan. 5, 1892, at Elks' hall, the officers for the present year were installed. On account of the death of the newly-elected treasurer, Mr. Fred Graner, H. C. Menter was elected to fill the vacancy. Other business of great importance was also transacted, and a social game of cards after the meeting.

The counting room of The People's Savings, Loan & Building Co., of this city, is one of the busiest places in Toledo. There seems to be a rush for opening of new accounts and for old members to get in all the deposits they can before the next dividend is declared on the first Tuesday of February.

The mileage accounts of congressmen are now being paid. Representative Geary, of Santa Rosa, Cal., traveled the greatest distance, 3,322 miles, and drew mileage amounting to $1,338.80, and Mr. Barnes Compton, of Laurel, Md., the shortest, only 18 miles, with mileage at $7.20.

INVESTIGATING

The Charges Made Against S. F. Tanner.

Testimony Taken by the Board of Revision

At Its First Session To-Day—Nothing Very Startling Yet Brought to Light in the Matter.

The news that charges had been preferred against Deputy Police Clerk S. F. Tanner created a profound sensation last evening and much speculation was rife as to what the outcome of the investigation would be.

The papers placed before the board of revision, and which contains a full statement of the case are as follows:

"To the Honorable Board of Revision of the City of Toledo:

"Gentlemen: Believing that an irregularity has occurred in the office of the police clerk of the city of Toledo, I send you the following communication: On the 23d of December I was called to the common pleas court as witness. When I returned to the police station the same morning, I was informed by one Henry Firman, night watch on the Wheeling & Lake Erie railway, that he had arrested one Terrance Mahoney, on a charge of petit larceny, and that he had come to have the matter settled before court time, by the defendant paying the costs of $3.20, which were paid by one William Rogers for the defendant to S. F. Tanner, deputy police clerk. No record or mention on any of the books of the case, or credit for the amount paid, can be found. I therefore submit these enclosed affidavits for your investigation.

Respectfully,
M. C. FOGARTY."

The following are copies of the affidavits referred to in Mr. Fogarty's communication:

State of Ohio, Lucas County, S. S.—Affidavit.

Henry Firman, being duly sworn, on oath says that he is the night watchman with special police powers for the Wheeling & Lake Erie Railway company at Ironville. That on the 23d day of December, 1891, he arrested one Terrance Mahoney at Ironville on a charge of petit larceny, and that he took said Terrance Mahoney to the police station in the city of Toledo. Affidavit further says that after arriving at the police station he took said prisoner to the clerk's office and consulted the police prosecutor, I. W. Wheeler, Esq., who consented to the prisoner being released upon payment of the costs, at the affiant's request. That affiant asked Deputy Police Clerk Tanner what the costs would be and received the response from said S. F. Tanner that the costs would be $4.20, including this affiant's fee of $1, which affiant said he did not desire, and therefore said S. F. Tanner said the costs would be $3.20. Affiant further says that he did not put said Terrance Mahoney's name upon the police court blotter, nor did he make an affidavit in said case; that said $3.20 was paid by one William Rogers to said S. F. Tanner as deputy police clerk in the presence of this affiant.

State of Ohio, Lucas County, S. S.—Affidavit.

William Rodgers, being first duly sworn, on oath says that he was at the police station in the city of Toledo on the 23d day of December, 1891, and was told by S. F. Tanner, deputy police clerk, that the amount of costs to be paid by Terrance Mahoney, arrested on a charge of petit larceny, was $3.20. That the affiant, then and there, at the request of and for said Terrance Mahoney, paid to S. F. Tanner the sum of $3.20, amount of said costs. WILLIAM RODGERS.

Sworn to and subscribed in my presence, the 28th day of December, 1891.
CURTIS T. JOHNSON,
Notary Public, Lucas county, O.

Mr. Tanner's first intimation of the affair was obtained from the reporters yesterday afternoon, who interviewed him after the board of revision meeting. He was very much surprised, and at first could hardly credit the statement that such charges had been made against him.

He had but little to say in regard to the matter, but claims that it is done by Clerk Fogarty for political effect, as both men are candidates for the police clerk's office and will come before the republican convention in the spring. "I don't deny that the money was paid to me," said Mr. Tanner, "but I do deny that anything is wrong. I think that where money is paid in cases of which no record is made that it belongs to the clerk. That money is still in the safe and I don't know where else it belongs."

Clerk Fogarty had little to say in regard to the matter, except what is in his papers presented to the board of revision. But he says that it is not done for any political effect whatever.

The Investigation.

The board of revision met this morning in City Solicitor Read's office, and commenced the investigation, which is being made full and open. Several witnesses had been subpoenaed and most of them were heard this morning. Mr. Read is examining the witnesses for the board, and Attorneys Merrill and Hone, who have been engaged by Mr. Tanner, were also on hand to inquire.

The first witness was John Mahoney, as his name proved to be, instead of Terrance. He testified that he had been arrested by the Wheeling watchman some time ago for stealing coal, and had been taken to the station where the case was settled upon payment of costs by William Rogers.

Henry Firman, watchman for the W. & L. E. railroad company stated that on the morning of December 23d, he had arrested Mahoney, at his boarding house, near the shipyards, and at once took him to the police station. They were accompanied by William Rogers, who keeps a saloon in the front part of the boarding house, who was to pay the costs.

Firman took Mahoney to the clerk's office and there asked the prosecutor to settle the case on payment of the costs, which Prosecutor Wheeler agreed to. The money was paid to Tanner and the prisoner released. He did not take Mahoney into the turnkey's room, nor have his name placed on the blotter.

William Rogers, the saloon-keeper, told of Mahoney's arrest and said that he went to the station with him and after Firman had spoken to the prosecutor he paid $3.20, the costs in the case to Mr. Tanner.

Judge Sala was sworn, and, producing his court docket, stated that no case against Terrance or John Mahoney had been brought before him on or about the 23d of December. He remembered Firman having spoken to him about a man he had arrested for stealing coal, and asking if the case might be settled. The judge, however, referred him to the prosecutor.

The judge then entered into a dissertation for the benefit of the board on what should be the method of procedure in such matters. "I have made it an order in my court," said he, "that when arrests are made, entry must be made on the blotter, the case must be placed on the court docket, and settled in open court. That is the law, the ordinance of Toledo, and a rule of my court. If the prosecutor deems it advisable to drop a case upon payment of the costs he can so recommend to the court and it is generally done, but the papers must be made out and entries made on the book, which entries it is the duty of the clerk to make. Firman ought to have had that man's name put on the blotter and papers should have been made out."

Police Prosecutor Wheeler testified that on the morning of the 23d, the Wheeling watchman had told him of his prisoner, whom he had arrested for stealing coal and asked that the case be settled upon payment of the costs. He consented to this. He did not say anything to the court, however, as no papers had been made out and he forgot all about it. He then explained that it frequently happens that cases are settled before court opens and upon his recommendation the judge generally marks them off docket. He also explained the usual proceedings in police court. He did not remember of any other cases where no record had been made.

Clerk M. C. Fogarty stated that there was no record on any of his books of this Mahoney case. He was not in his office at the time, being engaged at the court house. On his return he met Firman, who told him of the arrest and settlement. He thought no more about it for several days when he noticed that the money had not been turned in and no record had been made. He then inquired into the matter and obtained the affidavits of Firman and Rogers.

Solicitor Read showed Mr. Fogarty the monthly report of the police clerk to the county auditor for December, which was not sworn to by Mr. Fogarty.

"I signed that report," said Mr. Fogarty, "which is made out by my deputy, Mr. Tanner, but then I noticed that this $3.20 was not on it, and after I had advised with a lawyer I withdrew my signature and refused to swear to the report, as I did not want to get myself implicated. I turned it over to the auditor and told him of the situation."

After explaining various matters of procedure in the clerk's office, Mr. Fogarty stated that on two occasions, once in August and on last Saturday he had had conversations with Mr. Tanner on similar cases, and Mr. Tanner had each time told him that where no record was made of cases settled by costs being paid, the money belonged to the clerk. Mr. Fogarty said that in such cases he had always turned in the money and made a record of it notwithstanding what Mr. Tanner said. He showed the records in the two cases mentioned.

This concluded the testimony of the morning, and the board adjourned until this afternoon.

A GUN ARTIST ARRESTED.

Detectives Nichter and Carew this morning arrested a man who gave his name as C. F. D. Scott, and suspicion was placed next to his name on the blotter.

It developed later that Scott was arrested for forging orders on prominent men for a shot gun and presenting them to the gunsmiths and procuring guns on them, which were not returned. That he had a partner is evident, as two young fellows who have been victimized were down to the station, but failed to identify Scott as the man who worked them.

He Is Lying Very Low This Afternoon—Suffered a Stroke of Paralysis.

Doctor James Coldham is not expected to live.

The doctor was returning from a visit to a patient yesterday afternoon, and when near Market Space, on Superior street, he was suddenly stricken with paralysis, and was picked up unconscious. He was conveyed to his home on Michigan street, where the best medical attendance failed to revive him to any great extent, and he continued to sink rapidly.

Dr. Coldham was born in England 63 years ago. At an early age he left his native land for Canada and settled at Woodstock, Ont. In 1856 he came to Toledo and has remained here ever since.

He had one of the largest practices of any physician in the city, and had a crusty, frank manner that did not prepossess him with strangers, but to those who knew him he was kindness and tenderness itself.

GREEN BIGAMIZED, TOO.

Rev. Allen Green, the colored man arrested for stealing pork, was placed on trial in police court this morning. His wife was summoned as a witness, and when the clerk called Mrs. Green, two women arose and came forward. It developed that Green had two wives, both living. He married them both in Cleveland, one in 1874 and the other in 1875. One Mrs. Green lives on Superior street and the other on Detroit avenue. His honor adjourned court, and the marriage records of Cleveland were dispatched for. From present indications Mr. Green will have another more serious charge to answer to.

STATES MADE FROM TERRITORIES.

Since the declaration of Independence, when the united colonies declared themselves to be free and independent states, the United States has acquired territory in the three following ways:

1. By cessions to the general government from the 13 original states.
2. By purchase in treaties.
3. By annexation and conquest in war.

In the beginning there were 13 states with an area of about 340,000 square miles, containing about 3,000,000 people. Now there are 44 states and five remaining territories, not counting Alaska, with an area of 3,926,000 square miles and a population, in 1890, of 62,622,000.

Of the 31 new states which have been admitted to the Union since the adoption of the constitution, one had already formed itself into a state before the convention of 1787 had provided a way for its admission into the union; one, like a "lone star," came from a position of a and independent republic; one was made out of another state without that other's consent by an extra-constitutional process in civil war, and 28 by enabling acts of congress in the ordinary way were erected into states from the common domain of our national territory.—Chatauquan.

City Auditor's Office.

Toledo, O., Jan. 5th, 1892.

The committee on ways and means of the common council of the city of Toledo, Ohio, and the undersigned, invite sealed proposals at this office to

MONDAY, FEBRUARY 8TH, 1892,

at 7 o'clock p. m. for the purchase of Street Improvement Bonds, to the amount of Eight Thousand ($8,000) Dollars, bearing date Jan. 25, 1892, and payable as follows: Four Hundred ($400) Dollars on Jan. 25, 1893, and Four Hundred Dollars at the expiration of every six months thereafter, to and including July 25, 1902, at the office of the city treasurer, with interest at the rate of five (5) per cent. per annum, payable semi-annually at the same place as evidenced by coupons to be attached to said bonds.

Said improvement bonds are issued pursuant to Section 2704 to 2707 of the revised statutes of the state of Ohio, and also under an ordinance of the common council of the city of Toledo, Ohio, "To provide for the issue of improvement bonds to pay the cost and expense of the improvement of Monroe street, from the Old City Line to Bancroft street."—Passed Dec. 28th, 1891.

The said bonds will be sold at not less than par and accrued interest, to the highest bidder.

Bidders will be required to state the gross amount they will pay for the bonds besides the accrued interest to date of delivery at Toledo, Ohio. They will also be required to deposit with each bid an amount of money or a certified check on some responsible bank equal to at least five (5) per centum of the par value of the bonds, so bid for, as a guarantee of good faith, and that the bid so made (if successful) will be fulfilled in accordance with the terms thereof, and the requirements of the law and ordinances. When the bids have been examined and the award made according to law, all monies or checks deposited as guarantees shall be returned to the depositor, or held by the city auditor subject to his call, except that of the successful bidder, which shall be held and considered, and accepted as part payment of the bonds so awarded or sold, but should there be any repudiation of the contract or agreement, or refusal to accept and pay for the bonds so sold, then and in that case the deposit shall be forfeited to the city of Toledo, and shall become the property of said city, in compensation for loss and expenses attending the sale of said bonds and as liquidated damages for repudiation of bid. And no bid will be received if not accompanied by money or check aforesaid.

The right is reserved to reject any or all bids.

Proposals should be addressed to the "Auditor of the city of Toledo, Ohio," and be indorsed "Proposals for improvement bonds."

CURRENT TOPICS.

A Swedish newspaper, the Ostgoten, takes a somewhat novel and striking view of the emigrant question. It says that during the past 10 years 375,000 persons have left Sweden as emigrants. The education of each of these persons cost at least 1,000 crowns, about $270, making about $101,250,000 in all, and as they emigrated when they became old enough to turn their education to account and return some service to their country, the money spent for their education was a dead loss to Sweden, from a national point of view. But looked at from our point of view it means a clear gain of about just so much to this country. We get the fruit without the cultivation. It ought to solace the Swedes to reflect that thus there is no actual waste in the world.

For the first time in its history there is a deficit in the budget of Hamburg. The ancient Hanseatic city, it must be remembered, is one of the federal states of Germany, and is represented in the bundesrath, or federal council, by a man proud of the glorious traditions and history of his native city. In the budget for 1892 the state income is estimated at 83,321,551 marks, while the expenses are estimated at 87,539,651 marks, leaving a deficit of 4,218,100 marks. To cover the difference the senate has decided to add 20 per cent. to the income tax of all inhabitants enjoying a revenue of more than 1,500 marks. As Hamburg is a wealthy city, every 28 out of 100 men will be called upon to assist in getting the financial car in motion.

A marvelous story comes from Dakota of a discovery which has been accidentally made in the mountains northwest of Rapid City. It is stated that there is a natural telephone line between two mountains in the Black Hills range.

On each side of the valley, 12 miles in width, stand two high peaks, several thousand feet high, which tower above the other mountains and have long been known as landmarks. They have only on rare occasions been scaled, so but very little is known of their topography.

Some little while ago two parties started out, one for each peak, taking with them heliographs for the purpose of signaling to each other across the valley. The ascent was made, and when the top was reached one of the party on the north mountain was surprised to hear voices which apparently came out of the air.

By changing his position he discovered that at a certain spot of the mountain he could hear the voices, but that in other positions he could not hear them. He called the attention of his party to the phenomenon, and when the attention of the other party had been attracted it was found that an ordinary conversation was plainly heard from one mountain to the other.

This may be considered a rather tall story to foist upon the intelligent reader of the day, but Electricity offers the following as an explanation: The form of the mountain might be considered as serving the purposes of elliptical reflectors of sound, the speakers placing themselves in the foci at each end of the ellipse. The low density of the atmosphere at the altitude at which the observers were, would also tend toward intensifying the sound.

The various whispering galleries in England and the continent can be quoted as showing how sound is magnified under certain conditions, and another instance may be found in the Mormon temple at Salt Lake City. This last is of enormous dimensions, is built in the form of a true ellipse, and a person standing at the focus at one end can carry on a conversation in a whisper with another person who places himself in the focus at the other end.

All bills are issued by the Bank of France, which carries on the whole process of manufacture, including even that of the paper on which they are printed and the ink used. The paper factory is at La Ferte-sous-Jouarre, where linen rags are so treated as to produce a paper of a peculiar quality. This special paper is made, inspected, cut into sheets and shipped to Paris under the care of two of the bank officials, who are held responsible for every sheet.

The sheets are packed in bundles, of 1,000 in each, and are printed in the basement of the bank building in Paris. As with the blank paper, the bills, in every stage of fabrication, are in charge of some official, who must account for every one which has come into his hands, either by showing it or a receipt given for it by the official to whom he has handed it over. As the bank has sometimes printed 400,000 bills a day, and at such periods employs about 400 persons in the printing department, strict accounts are necessary to prevent loss, and an elaborate system of numbering and checking is used.

A series of bills consists of 1,000, which are numbered from 1 to 1,000, and 25 series, lettered A, B, C, etc., and tied up together under the name of an "alphabet." After each operation the bills are verified by women, who sign their names on the bands placed around the bundles. As there are nine operations there must be nine verifications, and the final verification is repeated by a fresh set of inspectors, so that nothing can be overlooked. After the bills are complete they are delivered to the secretary of the bank, who examines them and gives a receipt for them, discharging the head of the printing department from further responsibility. They are then placed in the vaults, and are withdrawn for issue only by order of the governors of the bank.

The principal difficulty in regulating the accounts comes from the defective bills. No bill is allowed to pass the inspectors which shows a spot, an uneven margin, a defect in printing, or any other imperfection, and the bills thrown out must be recorded in the books with quite as much accuracy as those which pass successfully to the final stage. Every bill rejected by the inspectors is stamped, and its place in the series filled by a check. The stamped bills go to the secretary of the bank, who puts them under lock and key, and new bills, corresponding to the checks, are printed, and credit is given to the paper manufactory for the paper necessary to make these.

The accounts of the "faulted" bills are carried through the books and, for verification, the stamped bills themselves are kept for five years. At the end of that time, if there has been no question about them, the regents of the bank, the secretary, the examiners, the chiefs of the printing department and the chiefs of the department of bill accounts, join in signing an order, in pursuance of which they are taken from the vaults and destroyed.

"No baking powder is gaining public favor so rapidly as Cleveland's."

One reason is people like to know what they are eating, and the composition of Cleveland's baking powder is given on every label.

So many baking powders containing ammonia or alum are widely advertised as "absolutely pure," the best way is to refuse any brand the composition of which is concealed.

THE SECOND CHAPTER.

Toledo's Bachelors Being Rapidly Gathered in.

Our Girls Find the Directory Reliable—Additional Eligibles Are Named Below with Specifications

The bachelors' directory, published in the Bee yesterday, while lengthy, was by no means complete, for desirable bachelors of all styles, shapes, sizes and qualities have been turning up since the issue, and as many of the finest articles mentioned yesterday have been rapidly gobbled up, it has seemed desirable to extend the excavating and bring to light other pearls that can be secured for the asking, almost.

So successful has the directory proved that a movement is on foot to establish a Leap Year Bureau, at which sealed proposals will be received on the following plan:

All bids must be written in ink, on one side of the paper only. Each bid must contain the full name of every person interested in the same, and a specified statement of the present property of the bidder and future prospects in that line; also statement regarding probable dowry, length, breadth and thickness.

Photographs may be sent, but none taken over ten years ago will be accepted, as they might be misleading, as time works wondrous changes.

It might be well to state father's temper and size of boot, also a map of the house, locating the position of the dog kennel and exits.

Good points might also be set forth in red ink to stand out and catch the eye.

One-tenth of the dowry money must be deposited as a guarantee of good faith.

With these few remarks it might be well to pass on to the array of scintillating beauty, wit and manliness displayed below. Surely there was never such a harvest awaiting the reaper. Gleaners are out in the fields to-day gathering in a few of the more bashful ones who naturally hid behind hedges and rocks, figuratively of course. Look out for yourselves, gentlemen.

Bobby Nelson; a gem of the first water.

A. E. Wilson; some one must take him soon.

H. E. Fisher; good angling for the fair ones.

L. G. Colton; a jolly chap, decidedly in it.

W. C. Buck; pretty as a peach and as sweet.

Will Radbone; very good catch, prime goods.

F. M. Ohl; should be taken up like hot cakes.

D. B. Burgert; dances like a summer breeze.

L. S. Ketcham; some one should surely ketch'im.

Clark Browning; has partiality for widows.

R. S. McGarey; a good chance for the right girl.

B. F. Brough; quite the proper thing, good caller.

John Maddy; a grain dealer, but not cross-grained

C. L. Lewis; has eyes for the beautiful always.

J. B. Givens; a proper lad as the English say.

C. W. Greening; not looking for money but sociability.

F. H. Irons; drifting about; should be taken in tow.

P. T. Cray; high up, but some one may knock him down.

Mose Math; best hustler and all-round dancer in town.

P. J. Engleman; a bit shy, but "if any one kin he kin."

H. F. Greer; would like a high blonde, money no object.

John Byrnes; telegrapher, electrical but not at all shocking.

Bob Garvin; not very sizeable, but with get there qualities.

H. M. Bash; quite a fellow, would make any girl happy.

Will Carroll; dark complexion, good looking, ladies' man.

J. Clifford Hoskins; has no flies on, and very desirable.

Malcolm Himes; sure to suit and should be picked up quick.

J. T. Smith; Smiths are plenty, but not such good ones.

Carl H. Beckham; tall and handsome; an Uncle Sam official.

W. F. Culbertson; always up in front with the band wagon.

O. P. Bernhart; a cycler, might be induced to buy a tandem.

G. L. Chapman; mighty good fellow; pleasant evening caller.

Edward C. Deardorf; tall, fine looking, manly, politeness itself.

S. R. Brough; if you see any flies on him, girls, brush them off.

Lyle Hubbard; a rapid young man with Grand Rapids proclivities.

M. H. Jennings; afloat on the matrimonial sea; should be anchored.

Will S. Graves; anything from $10,000 to $25,000 would catch him.

Rhyne Opitz; confirmed bachelor, but ought to be taken up this year.

Bob Timpany; probably tied up by this time, but an uncertain quantity.

John Berney; police clerk, tall handsome and a good one generally.

J. B. Steedman; a great bargain, but no sacrifice sale by any means.

Herman R. Klauser; has his eye on a Cincinnati girl; turn him around.

A. W. Eldridge; good stage manager; would take you to all the shows.

J. A. Mackinnon; surely such fine goods should not be lying around.

Jake Kolin; regular beauty, has grown an elegant crop of fall whiskers.

Cornelius Sweeney; Mrs. Cornelius, etc., would look well on calling cards.

Elmer Dale; heart masher of Brown's addition, as handsome as he is big.

Geo. P. Stevens; somewhat of labor agitator, blonde, of the right sort.

S. S. Cooke; stock higher than three kites, but some one can reach him.

Dick Storey; religious, aesthetic, would rent a pew in the front row sure.

James Gilroy; knight of the wire; full of electricity and a regular magnet.

W. I. Packard, at the Sunday Journal ticker, brighter than jerked lightning.

Ed Marvin; best natured man in Toledo; still young and in the market.

George Trost; legally inclined, but has a few spare moments for the ladies.

F. L. Zartman, good looking and clever; going to be a coffee merchant.

R. J. Mitchell; long trips could be made without finding a better article.

Chas. A. Thatcher; a great catch, (advance cautiously) probably spoken for.

R. G. Nelson; "many a rose is born to blush unseen," etc.; don't pass him.

Wallace Hamilton; comes from windy Kansas, can tell some whopping stories.

Sam Campbell and Tom Huber; a pair to draw to; great chance for sisters.

Curtis T. Johnson; high forehead, of a literary turn of mind; good democrat.

Fred Terry; in the lime trade, and is affected by the ladies as lime is by water.

M. A. Quinn; run around and catch him quick; liable to skip the town, so shy.

John T. Gamble; fine gentleman, a little shy; apt to become a "jiner" if left alone.

A. W. Wheelock; fine prospects; might be worked up for an European bridal tour.

Geo. T. Brayley; great fellow for yachting trips; would probably take the girls along.

Witt Cochran; registered "A1;" has had several close shaves, but is still in the market.

Henry A. Tiffany; up in drugs, quite bashful but sure to please when the ice is broken.

Hugo Kerschmaier; can analyze almost anything and knows a good thing when he sees it.

Dr. Frank Hart; a little cold toward the fair sex, but will thaw out if properly approached.

J. C. Prosser; good business man, a little bashful, but not invulnerable against cupid's darts.

Frank S. Deal; bound to be a big railroad official, will make a hit in the matrimonial market.

Geo. Irons; very fond of the girls, but is frightened if approached by more than seven at a time.

Judge McGahan; level-headed, with an eye for widows, evidently a believer in the home market theory.

Ed Murry, six-foot-one, old railroader, recently from the wooley west; comical; has a girl in eastern Ohio.

Geo. W. Lipscombe; hobby, secret societies, but could be induced to stay at home some evenings, at least.

Chas. E. Bartley; melodious voice pleasing manners, "owns two horses and bicycles and sells only his own property."

To all bachelors, who by reason of this directory, may before the year is out be in need of a house, I will sell a lot in Kensington at reduced rates and upon liberal terms of payment. Don't let the fact of your not having a home prevent you from accepting any good offer that may be made to you. I can help you out there.

Wheat Quotations for the Day—Price Current for Produce and Other Articles

New York Produce Exchange Weekly says: The wheat on passage from India, December 15, estimated by Beerbohm at 3,664,000 bu, including 2,816,000 bu to the United Kingdom and 848,000 bu to the continent. One year ago the quantity afloat from India was 3,520,000 bu, comprising 2,688,000 bu for the United Kingdom and 832,000 bu for the continent.

No Report on Winter Grain.

The following dispatch from the statistician of the department of agriculture explains itself:

Washington, Jan. 5.

Howard, Bartels & Co., Chicago:

The January report will not touch the condition of winter grain.

J. R. DODGE.

London wheat and corn markets quiet and steadier. English country markets quiet. Weather cold and wet. Liverpool wheat steady; corn shade higher.

The receipts of wheat at seven principal western points to-day are 556,786 bu, compared with 275,493 bu on the same day last year.

There is much significance in the fact that notwithstanding the British restrictions on our live cattle exported, we have sent to that country in the last eighteen months over 700,000 head.

The Jamestown, N. D., Alert says threshing of wheat is in progress through that state, from Jamestown in the south to Bottineau in the north. The weather generally is fine. Few storms having occurred, and the wheat in shock or stack is not much damaged.

The stocks of grain in private elevators at Chicago are reported at 2,379,000 bu wheat, 865,000 bu oats, 62,000 bu rye, 243,000 bu barley.

The shipments of wheat from Eastern European and Australian and South American ports during the past week were 2,160,000 bu, of which 1,760,000 bu were to the U. K. and 400,000 bu to the Continent.

Wheat opened steady at last night's close but sold immediately off a quarter and soon after was a half lower at 99 1-2c for May. Private cables confirmed the public ones as to dull and unchanged English markets. The weather in the northwest is quite cold but a warm wave is soon to follow. Receipts at Minneapolis and Duluth, 423 cars, which is light. Chicago reports the feeling on wheat as bullish on the floor, nine out of ten of the room traders working the market on that side. New York exporters say foreign demand is dead with no sign of immediate revival.

Exports to-day, including flour, equaled 449,000 bu. Liverpool closes, wheat firm and unchanged, with futures 1-2@1d up. Corn, 1-4d up and future 1-2@1 1-2d higher. Berlin is 3-4c higher, Paris 10 to 15 centums higher and flour 40 centums up.

Cash wheat quiet; not much demand. Opened at 94 1-2c, selling up to 95c, closing at 95 1-2c. January sales at 94 3-4 to 95 1-2c, worth 95 1-2c at close. May opened on call at $1 00; then to 99 3-4c, 98 5-8 to 99 1-2c, the lowest point of the day, and from there to $1 00 1-8, closing at $1 00 5-8. No. 3 soft early at 92 1-2c L. S., and 92c Wabash. At close held higher. Other grades neglected.

Corn firm.

Demand continues good at current prices. Sales include No. 3 at 40c; No. 4 at 38@38 1-2c, and January at 42c. Cash No. 2 worth 42c. Oats quiet. We quote No. 2 white 34 1-2c; No. 3 white at 33c, and No. 2 at 33 1-2c without sales. Rye steady; sales of No. 2 at 88c and No. 3 at 85c.

Clover Seed closes 7 1-2c lower for February and March. There were no trades in cash reported and no apparent demand. Worth about five cents under February, with No. 2 at the usual discount.

Chicago closes 3-4 higher on January and May wheat 3-4 higher; January corn 3-8c and May 1-8c higher. January oats 1-2 up.

New York—January closed 1-2c and May 5-8c higher. January corn steady at 52c and May 1-4c higher. January oats 3-8c higher.

Dressed hogs a quarter higher at $4 75.

Markets by Telegraph.

London, Jan. 6.—1 p. m.—Wheat cargoes off coast at opening, quiet; maize nothing offering. Wheat cargoes on passage and for shipment, steadier; maize quiet.

Mark Lane—Wheat at opening, quiet; maize steadier. English and French country markets quiet. Weather cold and wet.

Liverpool, Jan. 6.—1 p. m.—Wheat market quiet, demand poor, holders offer moderately. American mixed corn firm, demand fair, 5s 5 1-2d. Wheat off coast demand poor; corn fair.

New York, Jan. 6.—Money on call easy; 3@3 1-2 per cent. Exchange quiet; posted rates $4 83@4 85 1-2; actual rates $4 82@4 82 1-2 for 60 days and $4 84 1-2@4 84 3-4 for demand.

Governments steady; currency, 6s, $1 09 bid; 4s, coup., $1 16 1-2 bid; extended 2s registered, $1 00 bid.

The stock market this morning opened irregular but a firm to strong tone marked the early dealings and fractional advances were made as a rule, after the first few sales.

The selling of Northern Pac. pfd. continued this morning and the stock retired 1 per cent. Besides that stock, New England, Rich. & West Point, Erie, St. Paul and Chicago Gas led the dealings. The first two were especially strong. Rich. & West Point advanced 1 1-4c by 11 o'clock while the general list advanced only fractionally. In the hour to noon there was a change in the temper of the market. A pressure to sell was developed shortly after 11 o'clock and the offerings of stock increased as the morning wore on.

Under this outpour of stock prices fell away rapidly and by noon the improvement of the early dealings was more than lost. At this writing the market is about steady with figures fractionally below those of yesterday.

New York, Jan. 6.—Flour moderately active and steady; Minnesota extra, $3 50@5 50; city mill extra, $5 00@5 25. GOV. HILL'S SCAR.

There is a scar on Gov. Hill's neck that will recall to him to his dying day the narrow escape he had from assassination when he was a young lawyer but recently admitted to the bar. He was counsel for a woman named Minier, who had brought suit against her husband to replevin some furniture, and at the announcement of the verdict the enraged defendant drew his pocket knife and plunged the blade into the young attorney's neck. The knife just missed the jugular vein, and the resulting wound, though painful, was not serious.

SAVED HER FAWN.

A Pathetic Illustration of Dumb Animal Intelligence.

Last Sunday we were driving up the Water canyon, and as we turned a bend we saw a doe and a young fawn drinking from the stone ditch.

At our approach the animals were startled, and in attempting to turn the poor little fawn lost its balance and fell into the ditch.

As many of our readers know, the water runs very swiftly and in great volumes up there, and, of course, the fawn was carried down the stream. The mother deer seemed to lose all fear of us, and ran along the edge of the ditch trying to reach her offspring with her head.

Suddenly she ran ahead of the floating fawn for some little distance. She plunged into the ditch with her head down stream and her hindquarters toward the fawn. She braced her fore feet firmly in the crevices of the rocks to resist the rush of waters.

In a second the fawn was washed up on its mother's back, and it instinctively clasped her neck with its fore legs. The doe then sprang from the ditch with the fawn on her back. She laid down and the baby deer rolled to the ground in an utterly exhausted condition.

Mr. Sweeters and ourselves were not more than 30 feet from the actors in this animal tragedy, but the mother, seemingly unconscious of our presence licked and fondled her offspring for a few minutes until it rose to its feet, and the doe and the fawn then trotted off up the mountain side.—Banning Herald.

HOW AGATES ARE MADE.

They Come Mostly from Brazil and Are Cut in Germany.

"Agates are a kind of quartz," said a mineralogist to a Star writer. "Most of them comes from South America, and especially from Brazil, where they are found in great quantities. From thence they are shipped as ballast in vessels bound for Hamburg, Germany, and from that port they are forwarded to Oberstein. The latter town is the great agate market of the world.

"At Oberstein the agates are sorted into lots, according to quality, and sold at auction. After this they are sent to the mills to be cut and polished. Along the Idar river, between the towns of Oberstein and Idar, there are more than a hundred and fifty mills for working agates. Each mill has several big grindstones, on which the valuable bits of quartz are ground, being usually attached to small sticks for that purpose. Choice specimens are preliminarily cut into rough shapes with a steel wheel and diamond powder. Common ones, however, are merely broken into the forms desired with hammer and chisel. By long experience the workmen acquire great dexterity in applying their blows so as to obtain the requisite fractures.

"At each revolving grindstone two men work. They do not sit or stand, but lie outstretched upon wooden stools made to fit their bodies. While they hold the agate to the grindstone they get a purchase with their feet against blocks of wood fastened to the floor. After being ground the agates are polished on cylinders of hard wood, which are fed as they revolve with a mixture of tripoli and water.

"Agates are often colored artificially. For this purpose they are first placed in to olive oil and heated. Then they are put into sulphric acid and heated again. Owing to the fact that some layers of agate are quiet porous while others are dense, the oil enters the porous layers, where it is blackened by the acid, thus making the contrast between the colors of the layers more striking and enhancing the beauty of the stones. Other colors are given to agates by soaking in different solutions and otherwise, but these methods are trade secrets."—Washington Star.

ONE MASS OF SCALES.

Afflicted 3 Years by Dreadful Skin and Blood Disease, with Intense Pain and Loss of Hair.

All Other Remedies Fail. Relieved Instantly and Cured in 4 Weeks by the Cuticura Remedies.

I have a few words to say regarding the CUTICURA REMEDIES. They have cured me in four weeks' time from a Skin and Blood Disease which I have had for over three years. At certain times, my skin would be very sore, and always kept cracking and peeling off in white scales. In cold weather my face was one mass of scales. When in the cold air the pain was intense; it would almost bring tears to my eyes, and my blood also being in a poor condition, with a loss of hair. I have tried every known remedy that was recommended to me, but it was of no use, and gave me very little benefit. So, hearing of your CUTICURA REMEDIES, I concluded to give them a trial. The first application gave almost instant relief. In a few weeks' time I found myself cured, and I am thankful for what they have done for me. Your CUTICURA REMEDIES are a blessing to those who may have the opportunity to use them. I can recommend them to any one.

TOLEDO, OHIO, JANUARY 6, 1892.

Heller can look at Messer's picture and size himself up.

The bushwhackers of Ohio republican politics seem to be on the run.

Karl Andreas Flickinger can afford to smile at the confusion of his enemies.

Kansas is nothing if not alliterative: exit Plumb, enter Perkins accompanied by Peffer.

What's the matter with the republican police clerk's office, anyhow? Scandals are common of late.

It is a question of necessity as well as principle, the economy of the 52d congress. Its predecessor bankrupted the treasury and the day of reckoning is at hand.

The Buffalo News, sizing up the party situation in its own state concludes, "either Tom Platt or the republican party must be laid on the shelf." Looks like both might be shelved.

Griffin has managed to hoodwink many people in Toledo into the belief that he is "some pumpkins," but when he mixes with state politicians he is small potatoes and few in a hill. Evidence—his defeat for nomination for lieutenant governor and his exploiting for the speakership.

Kiamil Pasha, Grand Vizier to the Sultan of Turkey, has been dismissed because he failed to maintain the prescribed neutrality relative to Bulgarian and Russian affairs. Yet he was not so officious in self-imposed offices for his government as was our Minister Egan when the Chilean war was at its height.

By resolutions introduced in the senate yesterday, it is proposed to find out how Great Britain dare to make quarantine regulations concerning cattle importation from the United States so strict that they operate the same as prohibitive tariff duties, in the interest of British farmers and cattle raisers. The McKinley party of this country has a corner on that kind of legislation.

Fireworks Foraker did not capture the Ohio Trades and Labor assembly on the first bout. This central body of labor organizations is now in session in Columbus. While it is well known that trades unions oppose the introduction of politics into their meetings, and while the legitimate purpose of the Ohio Trades assembly is stated to be a yearly meeting of representatives from these unions to consider trades matters, there is a feeling among many of the unions that the central body is being manipulated too much by politicians within and without the organization. That the meeting should be called for Columbus, and called for this week, strengthened this feeling. Consequently a number of the delegates have gone to the meeting of the assembly instructed, as were the delegates from the Building Trades' Council of this city, to vote to keep politics out of the meeting. The endeavor yesterday to introduce resolutions denouncing Senator Sherman, under suspension of rules, was lost by a vote of 45 to 25, which looks as though the tools of the politicians were in the minority in the convention.

The quality of republican harmony in Ohio is indicated by the following extracts from the two party journals in Toledo. This from the Blade:

John Sherman's defeat will mean the retirement of the class which has existed on the public pap as pensioners and fossilized good-for-nothings for twenty years or more. * * * That Sherman has used the enormous influence that he has been enabled to wield by his being the sole republican senator from Ohio for so many years, to build up a machine for his own partisan ends in Ohio, is a notorious fact.

Secretary Foster remarks that "the struggle is practically ended." Wait until Mr. Foster wants to control the national delegation from this state.

Now listen to the Commercial:

Tammany is dead in Ohio. The Cincinnati gang has gone to the bone-yard. The great conspiracy to down Sherman has collapsed. Boodlers are in lamentation and honest republicans offer thanks to heaven. Bluff and bluster have subsided and cheek no longer rules. Political pirates can no longer dominate Ohio politics.

And these illustrations of "harmony" might be multiplied indefinitely by quoting other state papers, but the Bee, out of courtesy chose the home products for example.

A congressional redistricting bill has been introduced in the legislature which will give the republicans fifteen congressmen and the democrats six. As the difference in the vote between the two leading political parties in November last was only 21,000 in a total of 751,967 votes, the unfairness of the division is apparent, but nothing less is to be expected. In decency, however, the republicans should call the measure by its correct name—gerrymander. It is that, pure and simple. However, the democrats will not grumble. They have done such things themselves. It is the Ohio idea.

In the bill which Senator Carpenter has introduced the counties of Williams, Fulton, Lucas and Ottawa are grouped in the Eighth district. The republican plurality at the last election was 1,178. This is a fair majority, but one which would put the democrats on their mettle and they might succeed.

It is hardly probable that the republicans of Fulton and Williams will care to be placed under the domination of the quarrelsome leaders in Toledo. If such a district shall be made the outsiders will have no voice in the conventions Lucas republicans will do as they please. At the November election the republican vote in Lucas was 9,879, while the combined republican vote in Ottawa, Fulton and Williams was only 6,982. On a ratio of one delegate for each hundred votes cast last fall, Lucas would be entitled to 99 delegates and all of the other counties to only 70. Brother Brigham, of Fulton, Col. Boothman, of Williams, Capt. Luckey, of Ottawa, and the other aspirants would be boxed by Griffin, Flickinger, Hamilton, Squire & Co., of Lucas.

It isn't probable the Carpenter bill will become a law, neither is it likely any of the surrounding counties desire to be tied to Lucas for a congressional scramble. Lucas is the hoodoo of the section. There will be fun the coming campaign, and at present democrats are "sawing wood and saying nothing."

THE BOUNTY PLAN.

Vermont maple sugar makers get $100,000 at the first whack, from the national treasury. What possible justice there is in making such a present, regularly, from the people's tax money to a class of producers whose labor of production is among the lightest and in the furtherance of which nature has done the planting and cultivating, is beyond the skill of any man to explain. Why should the farmer who grows oats and corn and parsnips be obliged to pay tribute to his neighbor who raises beets or boils down nature's product—maple sap—into sugar?

If the bounty principle is the correct one, why not extend it? pay bounty on every pound of tin, wool, or any other product which the powers-that-be shall elect to favor? To substitute this plan of taxation for the tariff tax would do away with a vast army of collectors at every port, would simplify matters wonderfully and eliminate the thieving of smugglers and customs house bribe-takers. Then the people would know just what and whom they were aiding and the extent of their tribute. An exchange carries this idea of direct methods still further, and proposes, inasmuch as this vast and expensive machinery is declared to be run in the interest of labor, that all the wheels within wheels be cast aside and the working man be paid bonus direct from the government, sufficient to protect him from "pauper competition." "But," explained Mr. McKinley, "such policy could not be continued; the people would not submit." There's the rub, and the confession that the expensive machinery is kept oiled and in motion to deceive the people. If it is just that certain classes of producers shall be taxed for the benefit of certain other classes, then the direct bounty method is the correct one. Manufacturers marched to Washington to tell legislators what bonus they needed to enable them to live handsomely and make desirable profits; let employes do the same and the "protection" be handed out the treasury window, in both cases.

The Hamilton County Joker.

Cincinnati, under its political alias of Hamilton county, is the veritable little joker in politics, in spite of its normal democratic ring always defeating some model and popular Ohio democrat like Thurman, Pendleton, or the present amiable governor, James E. Campbell, in the most unexpected manner.—New York Telegram.

Not Under This Administration.

It is painfully apparent that a good many federal office-holders were on the ground at Columbus last week whooping things up for John Sherman. They happened to be engaged in a good cause this time, but it is better, nevertheless, that federal office-holders should mind their own business.—Boston Herald.

Like the Rest of the Republican Bosses.

Frank Hatton, in the Washington Post, hints at Blaine's conversion to a peace policy toward Chili on the let-in-on-the-ground-floor-plan, with William R. Grace as the landlord. That Frank and Jim are out goes without saying.—Chicago Press.

The Better Policy.

"Nibbling" at the McKinley act in hopeful directions would be better policy for the democrats than to "bite off more than they could chew" in trying to repeal it all at once against a hostile senate and president.—New York World.

Carnegie's Surplus.

It is hoped that Mr. Carnegie's 10 per cent. reduction in the wages of his employes will enable him to send Mr. Harrison another cask of Scotch whisky by the time the republican national convention meets.—Indianapolis Sentinel.

The Old Grind in New Hands.

The wheels of legislation are about to start up again all around the circle, with the promise of an unusual crop of new laws. Chili and the grip will soon have to take back seats.—Boston Globe.

They Are Not In It.

So far as it goes, Ingalls has the satisfaction of knowing the Decalogue is in the same plight as himself. If it has no place in politics, no more has he, to all appearances.—Philadelphia Times.

Done Everything But—

New York's Grant monument committee is to be reorganized. Up to date it has done about everything but build a monument.—Washington Post.

Of Course They Do.

After agreeing to abide by the decision of the court of appeals, the g. o. p. in New York want to kill the umpire.—Philadelphia Times.

One of Mr. Springer's first steps will be to get his fingers into Mr. McKinley's wool.—Washington Star.

UNIVERSITY EXTENSION.

Lecture Course Arranged—The Subjects To Be Discussed.

The executive committee of the Toledo Society for University Extension met yesterday afternoon at 4 o'clock in President Compton's office at the high school. Communications from several colleges were read and discussed. After careful consideration of the courses offered for selection, the following were decided upon, each course to consist of six lectures.

A course in Economics, by Prof. H. C. Adams, of Ann Arbor, to begin Friday evening, January 15.

A course in English Literature, by Prof. Demmon, of Ann Arbor, to follow Prof. Adams.

A course in Geology, by Prof. G. Frederic Wright, of Oberlin, to begin about the middle of April.

Prof. Adams' lectures will occur uniformly on Friday, in the school room of the high school building. The price of the course ticket will be $1, this sum to include the cost of the printed syllabus. When two or more attend from one family, the first ticket will be $1, and others can be had at half price, of President Compton at his office.

The committee authorized President Compton to attend to the printing of all necessary circulars, tickets, syllabi, etc. Further information as to the class work in connection with the lectures will be made public as soon as Prof. Adams' arrangements are known.

The attention of all interested in university extension work is called to the evening classes in elementary physics and chemistry, conducted by Messrs. McPherson and Richmond of the high school. Courses in each will begin Thursday evening, January 14.

NATURAL GAS MATTERS

Will Next Receive Attention at the Hands of the Board of Revision.

At the meeting of the board of revision yesterday after the Tanner matter had been disposed of, Mayor Emmick made a few remarks about the gas board and declared it as his opinion that this board and its affairs needed a thorough investigation.

The matter was informally discussed at some length, and each member of the board called up instances of queer doings that needed looking into, and the general opinion was that an investigation should be held.

The only action taken, however, was to postpone the matter until after the Tanner inquiry had been disposed of.

ABOUT PEOPLE.

Bernhardt, Patti and Langtry are each engaged in writing a book.

Mrs. J. C. Ayer, of Lowell, has given the beautiful residence she owns in that city as a home for young women.

Wordsworth was no reader. He once said he had not spent five shillings for books in as many years. He went to school to nature and humanity.

John Redmond, who has been chosen over Michael Davitt by the people of Waterford, was once a clerk in the house of commons at $450 a year.

Theodore von Mommsen, the famous German historian, celebrated the thirtieth anniversary of his professorship in the University of Berlin a few days ago.

It is said that the alto relievo in bronze, which St. Gaudens is designing for Boston of Col. Shaw and his negro regiment, will be the sculptor's greatest triumph.

Walt Whitman does not fear death. In the future state he believes that the humblest beggar will share the same joys with the world's mightiest potentates, and to all there will be given more gladness than the world can ever dream.

MENTIONED ON THE STREETS.

That a new steam yacht for Toledo need not surprise the people.

That the move to deepen the harbor will be applauded all along the lakes.

That wood and coal yards are reaping a rich harvest during the cold snap.

That good sleighing is confined to the back streets, where street cars do not run.

That the salt ordinance has been pronounced a dead letter by the street car companies.

That an international yacht race at Chicago during the world's fair would be the proper caper.

That it is about time the republicans were driven from the control of the city government.

That Toledo's Grand Army posts are among the strongest in the state, and are still growing.

That the boom for Foraker for United States senator has dropped with the old-time dull, sickening thud.

That the political life of several local statesmen will be determined by to-night's senatorial caucus at Columbus.

That Fogerty has taken another way of getting Tanner to resign other than by asking him to retire.

That the big wells added to the city line do not seem to increase the amount of gas to any great extent.

That a more persistent and successful insurance man than Joe Duffey is not to be found in seven states.

That citizens burning gas by meter measurement are well pleased with their bills at the close of the month.

That a surprise party is on the boards for the boys at McGuire & Werden's gymnasium at no distant date.

That an inspection of the city meters and mixers is being made, and President Parsons is assisting in the work.

That the board of revision has not been a sinecure in the past twelve months. It has considerable power invested in itself.

That visitors to the cider and vinegar convention to be held in the city next week will be properly entertained by the local members of the organization.

That a new game of razzle-dazzle has made its appearance in Toledo, but that it will never be as popular as the original.

That vessel men are looking forward to an unusually prosperous season this year, with big ore and coal contracts in sight.

That several additions to the eligible bachelors' list have been sent to the Bee office and will appear in due time. Thanks.

That the present month will be taken up with installations by the various orders, and then work will begin in dead earnest.

That the proposition to make a congressman out of Representative Flickinger is not received with favor by all republicans, but it is the slate.

That "Doc" Smith is grumbling because his statement helping Griffin was not given the attention which he believes it was entitled to. Such is fame.

That many of the yachtsmen are talking about cruising to Chicago during the world's fair. Detroit will send a squadron and Toledo does not propose to be left behind.

That Toledo has been shown the way by which she can secure a ball club this season, and that many fans are anxiously waiting for some definite action to be taken.

That Councilman Pheatt rises to the occasion on all questions, especially with regard to the work of improving the channel, so that all kinds of vessels may enter the port.

That there is rivalry among councilmen to see who can get the most friends appointed as conductors and motor men, and that the street car companies do not object to this condition of things.

That the new law relative to salaries for county officials will be much more satisfactory to them and the public in general. The fact that would-be litigants will have to deposit preliminary expenses may prevent many suits being filed.

MISDIRECTED LETTERS.

Number of Missent Missives Received at the Toledo Postoffice During '91.

The following is a list of errors made by patrons of the Toledo postoffice during the year just closed:

The number of pieces of mail matter handled at Toledo postoffice for month of December was 2,276,503. The number of errors made in the distribution of this mail was 146. The number of pieces handled correct, to each error made, was 15,592. Correct number of pieces handled was 99.99 per cent.

For the year ending December 31st, 1891, the total number of pieces of misdirected and insufficiently addressed mail matter deposited in this office was as follows, viz.:

Letters, returned to senders, on account of errors, in address	4,871
All other classes of mail matter misdirected	2,227
Corrected and forwarded of all classes of mail matter	2,641
Held for insufficient postage	8,345
Total errors made by the patrons of the Toledo postoffice during the year	17,434

NO TRUTH IN THE STORY

That the Northwestern is Charging Extra Prices.

"The statement made in the Blade last evening to the effect that we charge city gas consumers connected onto our line 25 cents a thousand, is false," said Superintendent Daily, of the Northwestern Natural Gas company, to a Bee, this morning. "We make no discrimination whatever, and could not do so if we were so inclined. The city council regulates the price of gas. Besides that we have no feeling in the matter, and would as soon take on a consumer that had been taking from the city as any other. The fact that they were city consumers makes no difference with us. We work on the principle first here first served, and when we have gas to spare, the applications are supplied in their turn. At present we are making no new connections whatever. We have plenty of gas for our consumers and don't want to pinch any one."

WAS IT FROM STUMP?

Telegraphic Communication from Massillon Inquiring as to a Reward.

Last evening Mayor Emmick received a dispatch from Massillon inquiring whether there had been any reward offered for the arrest of James Stump, who was convicted in common pleas court on the charge of horse stealing. The mayor turned the dispatch over to Sheriff Stuart, who immediately telegraphed to the marshal of Massillon to ascertain if Stump had been arrested in that place. An answer came back that the authorities knew nothing of Stump.

Prosecutor Barber and Sheriff Stuart are of the opinion that it was only a plan adopted by Stump to learn whether any effort was being made to effect his capture.

A DANGEROUS DOUBLE.

A Tennessee Business Man Mistaken for a Forger.

Memphis, Tenn., Jan. 6.—Charles T. Whiteman is apparently the victim of an aggravated case of mistaken identity. Whiteman's family live in Memphis, but he is frequently absent in Tunica county, Mississippi, where he has large lumber interests. He came here several years ago from the west and has always been regarded as a good citizen.

A month ago he was arrested in Mississippi by Deputy Sheriff Goodwin, of Columbus, on suspicion of being L. C. Zink, who committed extensive forgeries in that city 14 years ago.

Whiteman denied the charge and at his request the officer took him to Evansville, Ind., where he had formerly lived, and where he proved that his name was Whiteman. He was released and came home.

The officer, however, was not satisfied, and having learned that Whiteman's residence was in Tennessee he went to Nashville and got a requisition for him from Gov. Buchanan. Accompanied by another deputy sheriff, Goodwin came to Memphis and waited for Whiteman to return from a trip to Mississippi. He came in Saturday night and the two officers arrested him while on his way home. They refused to let him see his family, and hurried him on board a north-bound train. Whiteman protested to the last that he was not Zink, and his friends here are confident that he will be able to establish the truth of his claims. The arrest was made so secretly that nothing was known about it here until late last night

SNOW IN NEW YORK.

Nyack, N. Y., Jan. 6.—A heavy snow storm which began at 6 o'clock this morning is now in progress along the lower Hudson. The snow is rapidly growing deeper, with promise of good sleighing. This fall of snow is the first that covers the ground this winter.

Change of Couplers on the Lake Shore.

Steel Rails for the Pennsylvania—Eastbound Shipments—Various Other Matters of Interest Here and Hereabouts.

The Toledo, St. Louis & Kansas City railroad has given the requisite thirty days' notice of withdrawal from the joint agreement made between the trunk lines and the Central Traffic association one year ago for the government of business within joint territory.

Lake Shore Couplers.

At the meeting of the presidents of the Vanderbilt lines last week in New York, it was determined to change the couplers on the passenger coaches of the Lake Shore and New York Central. Just what make has not been decided on. The old Miller coupler, however, will be dropped, as it is not equal to all emergencies. The new style will be automatic, and constructed so that a coupling can be made on curves as well as straight track, and will do away with the friction of the bumpers. It is the intention to have both passenger and freight cars equipped so that they can be coupled to each other if necessary. All freight cars on these lines are being equipped with automatic couplers as fast as they can get them into the shops.

Last Week's Eastbound Freight.

Largest on record is the statement of the eastbound shipments from Chicago last week—134,676 tons, against 82,743 tons the previous week, and 77,397 tons for the corresponding week last year. It is true that it includes the business of nine days instead of the usual seven, but nevertheless it goes on record as the superlative statement to date. The highest weekly tonnage previously recorded was 131,793, for the week ending January 11, 1890. The next highest was 120,331 tons, for the week ending December 17, 1891. Following is the distribution of last week's tonnage:

	Tons.	Per cent.
Michigan Central	17,710	13.2
Wabash	6,715	4.9
Lake Shore	26,826	19.9
Fort Wayne	22,360	16.6
Pan Handle	11,035	8.2
Baltimore & Ohio	9,301	6.9
Grand Trunk	15,895	11.8
Nickel Plate	12,557	9.3
Chicago & Erie	12,279	9.2
Total	134,676	100.0

The Kanawha Dispatch.

It is said that some western road, in connection with the Kanawha Dispatch, is manipulating rates on dry goods from the east. The charge is that a rate of 80 cents per 100 pounds is being quoted from New York to the Missouri river, which is in reality lower than the regular rate by the standard lines from New York to the Mississippi river. There is talk of investigation by the interstate commerce commission.

Took the Compliment.

The Indianapolis News tells the following joke on Harry Rhein, of the C., H. & D., who is well known in local railroad circles:

"Not long ago Gov. Chase went to Bloomington, Ind., and Private Secretary Roberts accompanied him. Harry Rhein, general agent of the Cincinnati, Hamilton & Dayton, was also in the party. The governor, in making his address, referred to the "handsomest man in the party," at which Mr. Rhein got up and bowed his acknowledgment of the compliment. After the meeting the crowd clustered around and shook hands with the governor and with Mr. Rhein, but Mr. Roberts was "barred out." He was hardly noticed, but enjoyed the joke very much. The fact is that the governor meant Mr. Roberts in his remarks, but Rhein feels, even to this day, that he was the individual the governor had referred to. If there is any one handsomer than Rhein in this part of the country he has disguised himself."

The Pennsylvania people have placed another order for steel rails, 20,000 tons, making a total of 80,000 tons contracted for 1892 delivery. About half of the new rails will be laid on the lines west of Pittsburg. The laying of the second track, which is being pushed on several divisions, will require a large amount of steel.

WENT ON THE ROCKS.

Lewes, Del., Jan. 6.—The schooner S. G. Hart, Capt. Holbrook, of St. George, Maine, in ballast from New York for the Chickahominy river, Virginia, in coming into the breakwater by mistake in lights, ran on the rocks in the Gapway at 10 o'clock last night, making a hole in her, causing her to fill with water. The crew was saved.

THAT GAS BURNER

Which Is Now Being Exhibited on Superior Street—Great Invention.

The announcement made some time ago that Mr. A. Noteman, of this city, had been granted a patent on a new and improved gas burner, created intense interest in Toledo, but when the invention was publicly tested and the splendid results noted, the interest increased tenfold.

The burner was invented June 5, 1888, for consuming petroleum vapor, which is natural gas, but not long ago Mr. Noteman conceived the idea that the device would supply the crying need of some means whereby the gas supply could be fostered, and the heat units derived to the fullest extent. He made a trial, and his ideas were confirmed by actual test. It was developed that the burner intensified the heat just double with the same pressure of gas.

Mr. S. T. Fisk became associated with Mr. Noteman in the enterprise, and the gentlemen intend to spare no pains or expense to give the public every advantage of the invention.

A burner was attached to a stove in a room above Wooley's music store, where it is now on exhibition and is being inspected by hundreds of people every day.

A Bee called this morning and was compelled to elbow his way through the crowd to view the invention. The projectors are literally submerged with orders and have made arrangements to fill them within a few days. At present they are supplying applicants where sickness prevails. A dozen orders were filed in the presence of the Bee, and several wanted to pay the cash in advance to secure the burner quicker. The invention is going with a rush and is endorsed by all who see it work.

His illness is not at all serious, and at the department it is treated lightly.

DISSOLVED PARTNERSHIP.

The Claflin Paving Co. and J. R. Miller

Part Company Over a Disagreement—Trouble Brewing, but May Be Settled.

The announcement is made to-day that the Claflin Paving company and J. R. Miller, the well-known contracting firm, has dissolved partnership. The dissolution arose out of an alleged breach of contract on the part of the Claflin people, and the result may be settled in the courts.

It has been hinted that one cause of the trouble was the statement alleged to have been made by Mr. Claflin anent the trouble between Mr. Miller and City Auditor Walker.

Mr. Miller returned from Cleveland last evening, where he has been for a week. To a Bee this morning he was very reticent. He said:

"We have dissolved partnership, and that is about all I care to say just now."

"The trouble, it is said, grew out of a breach of contract. Is that so?"

"Well, perhaps; but inasmuch as we have agreed to remain together until we have paid what we owe here and settle up all old work, I don't feel like saying anything more at present."

The company has been in existence five years, and during that time has paved 34 streets in this city at an estimated cost of $1,000,000.

Mr. Miller will continue in business as a contractor, and proposes living right here in Toledo and improving her thoroughfares as heretofore.

Special Master's Sale

United States of America, Northern District of Ohio.

The Central Trust Company of New York Complainant, v. The Cincinnati, Jackson & Mackinaw Railroad Company and others, Defendants. Consolidated Causes. In the Circuit courts of the United States for the Northern District of Ohio, Western division, and for the Southern district of Ohio, Western division, and for the Eastern district of Michigan, and for the Western district of Michigan, Southern division. In equity.

Notice is hereby given that in pursuance of a decree of the Circuit Court of the United States for the Northern district of Ohio, Western division, entered in the above entitled cause on June 5, 1891, and of a decree of the Circuit Court of the United States for the Southern district of Ohio, Western division, entered in the above entitled cause on July 1, 1891, and of a decree of the Circuit Court of the United States for the Eastern district of Michigan, entered in the above entitled cause on June 29, 1891, and of a decree of the Circuit Court of the United States for the Western district of Michigan, Southern division, entered in the above entitled cause on June 30, 1891, and of an order of said circuit court of the United States for the Northern District of Ohio dated December 23rd, 1891, and of orders of said other circuit courts adopting the same, we, Benjamin F. Wade and Hiram F. Carleton, the Special Masters designated, by said decrees, will sell without appraisement, at public auction, to the highest bidder or bidders, in the United States court room, in the City of Toledo, County of Lucas, and State of Ohio, at three o'clock, p. m. on the 8th day of January, 1892, the property covered by and embraced in the consolidated mortgage of the Cincinnati, Jackson & Mackinaw Railroad Company, dated December 1, 1886, Excluding the Central Division, (being the property described in the first mortgage of the Cincinnati, Van Wert & Michigan Railroad Company, dated April 14, 1881), together with the proportion of equipment, material and supplies appertaining to the same which, upon the reference ordered in said decrees, shall be decreed by the court to properly belong to the same, and to be covered by said Consolidated Mortgage, said property (excluding the Central Division) will be sold as an entirety, without appraisement or redemption. No bid will be accepted therefor from any bidder for a sum less than $450,000, nor from any bidder who shall not, if requested by the Special Masters, place in their hands, or deposit with them, as a pledge that he will make good his bid, if accepted by the court, the sum of $25,000 in cash or Consolidated Mortgage Bonds to the amount of $250,000 of principal.

Of the price for which said property shall be sold, there shall be paid in cash, at the time of the sale, a sum equal to the amount of cash deposit hereinbefore required, and also, at the same time, and from time to time thereafter, such further portions of said purchase price as the court may direct; and the court reserves the right to reject any bid, and to take and to sell said premises and property, upon failure of any purchaser for twenty days to comply with any order of the court requiring payment. The balance of the purchase price not required to be paid in cash may either be paid in cash, or the purchaser may satisfy and make good said balance of his bid, in whole or in part, by paying over the outstanding Consolidated Mortgage Bonds, and overdue coupons, or either, at such rate or value as shall be equivalent to the amount that the holder thereof would be entitled to receive thereon, in case the entire purchase price were paid in cash. If any bid shall be accepted by the court, and the person making the same shall fail to comply with all the conditions of sale and all orders of the court with respect thereto, the sum deposited by the bidder shall be forfeited, and shall be applied as the court may direct.

Reference is hereby made to the said decrees for a more specific description of the mortgaged property therein ordered to be sold and for further particulars of the terms and conditions of sale.

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED,

As a general family remedy for dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels.

TWO TOWNS.

Brother! you with growl and frown.
Why don't you move from Grumbletown,
Where everything is tumbled down
And life is always dreary?
Move over into Gladville, where
Your face will don a happy air,
And lay aside the look of care
For smiles all bright and cheery.

In Grumbletown there's not a joy
But has a shadow of alloy
That will its happiness destroy
And make you to regret it.
In Gladville they have not a care
But what it looks inviting there,
And has about it something fair
That makes them pleased to get it.

'Tis strange how different these towns
Of ours are! Good cheer abounds
In one, and gruesome growls and frowns
Are always in the other.
If you your skies of ashen gray
Would change for sunny smiles of May,
From Grumbletown, oh, haste away;
Move into Gladville, brother.

Two burglars caught a tartar in Boston one night last week, through which they were themselves caught to their sorrow and pain. While ransacking a house in Cambridge, Mass., they entered the bedroom of Miss Margaret E. Russell, who owned the place. That lady, who kept a large bell on her chair by her bedside for just such visitors, jumped up, seized the bell and not only used it for ringing purposes, but banged the burglars over the head with it at the same time so effectually that the wounds thus made rendered their identification complete when captured shortly after on the street, whither they had hastily fled from the attack made on them.

A CHARMING WOMAN

Is Miss Paget, the English Actress.

The Conreid Opera Company in Poor Jonathan—The Fat Men—Leavitt's Burlesque Company.

Miss Ffolliott Paget, she who uses so many double letters in her name and who appears at Wheeler's this evening in The Lst Word, was seen by a Bee this morning and granted a very pleasant interview.

Miss Paget is a lady of splendid presence, with the fine physique and clear complexion characteristic of English womanhood. She has lustrous eyes and a wealth of curly brown hair. Her manners are cordial and charming.

"I am a Kentish maid," she said in answer to a question as to the place of her nativity. "It is right curious that on one side of the river Medway, which divides the county of Kent, the girls are called Kentish maids, and those on the other side maids of Kent. I was born in the house in which lived the author of 'Ingoldsby's Legends' and in which he wrote 'The Little Vulgar Boy.' The house and the cliffs and the surrounding property are owned by my grandfather.

"I have been in this country three years. In London I played with Charles Wyndham at the Criterion. By special request we once played David Garrick at Sandringham before the Prince and Princess of Wales and their guests, the stage being erected in the ball room.

"Once I was praising Mr. Wyndham's David Garrick. He returned the compliment by saying that in 25 years I could play Lady Macbeth. 'Oh,' I said, 'if it takes me 25 years I will not want to play it.' 'I don't see why not,' the comedian returned, 'it took me 25 years to learn to play David Garrick.'

"And how do you like America?" was asked.

"The Americans couldn't have been nicer to me if I belonged to them. I want to stay here and I try to consider myself an American. However, I can't help going to dear old England after every season, and when I go home I have so many marvelous things to tell.

"I came to America because it is such a wide theatrical field. From the encouragement I have received I believe I will get on. In Aunt Jack I am following Agnes Booth, and in The Last Word Ada Rehan, two of America's greatest actresses. The comparisons the press have made between them and myself have been very complimentary to me. I believe American audiences are as friendly to a British as an American actress. Those who have talent will always come to the front."

Fat Men's Club.

Philadelphia and Boston have always been strong cities for J. C. Stewart in the Fat Men's Club, but this year in both he played almost twice as much money as any previous engagement, and the weather was extremely warm in the former city. This illustrates more plainly than anything could that the company and play are great in every sense of the word. They will play at Wheeler's Thursday and Friday.

The Conrieds.

The lovers of light opera will have a treat on Monday, June 11, when Conried's Comic Opera company will sing the great New York "Casino" success, "Poor Jonathan," at the Wheeler opera house. Sale of seats opens Friday.

"Poor Jonathan" was written in 1889 by Carl Millocker, the composer of "The Beggar Student" and "The Black Hussar," at the suggestion of Manager Conried, who was particularly desirous of interesting the great musician in the composition of a new opera having an American subject.

The plot, if such the opera may be said to have, is laid in New York. "Rubygold," a bonanza king, who is unable to support the responsibilities of his vast wealth, transfers his entire property to his cook, "Jonathan Tripp," who puts it to the best possible account. The performance is all in the spirit of burlesque, but is controlled by the nicest artistic taste and thoroughly finished in every detail. The music is pleasing and catchy and the ensemble and numbers effective.

The company is strong. The cast of nearly fifty people includes Rita Selby, Fannie D. Hall, Louise Hillard, Kate Trayer, Helene Cary, J. Aldrich Libbey, A. W. F. MacCollin, George M. Herbert, Frank W. Miller and H. L. Rattenberry. The musical conductor is Mr. Maurice Gould.

Spider and Fly.

M. B. Leavitt's burlesque company will present the "Spider and Fly" at Wheeler's opera house next Saturday evening. The Philadelphia Press speaks of them as follows:

"'Spider and Fly' drew an audience that filled every available seat of the Empire last night. Just why this very attractively presented combination of variety and spectacular effect should merit the name it bears is not clear. The piece is a succession of fairy-land scenes, in which specialty acts, amazon marches, clever dancing and good singing are the characteristic features."

Notes.

A "Pair of Jacks" played to another big house at the People's last night.

"Men and Women" will be presented at Wheeler's opera house Tuesday and Wednesday evenings of next week by a strong company.

EVE'S DAUGHTERS.

Marian Harland, on pages 103 and 445 of her popular work, "Eve's Daughters: or, Common Sense for Maid, Wife and Mother," says:

'For the aching back—should it be slow in recovering its normal strength—an Allcock's Porous Plaster is an excellent comforter, combining the sensation of the sustained pressure of a strong warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of uneasiness for several days—in obstinate cases, perhaps a fortnight.

"For pain in the back wear an Allcock's Porous Plaster constantly, renewing as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the aching incessant."

ARNOLD W. ALBRECHT,

City Editor of the German Express, Meets an Accidental Death.

Shortly after 6 o'clock last evening Arnold Albrecht, the city editor of the German Express, met his death by falling from a Consolidated car while swinging around a curve. It was a most sad accident. Mr. Albrecht had boarded the car in company with A. De Pury and Chief O'Dwyer. The three gentlemen were on their way home. The car was full and they took their stand on the rear platform.

On reaching the corner of Ontario and Lafayette streets, where there is a wide curve, the car, which was not going very fast, gave a sufficient lurch to throw Mr. Albrecht and Mr. De Pury from the platform. The former struck sideways on his head and was unconscious when picked up. Chief O'Dwyer telephoned for the patrol and the unfortunate man was taken to his home on Nebraska avenue, where he passed away shortly afterwards.

Hemorrhage of the brain was the cause to which the physicans attributed his death. Arnold W. Albrecht was born 44 years ago in Ulm, Bavaria. He married and came to this country and Toledo in 1873. He was a man who made many friends and knew well how to keep them. His sad death is a source of general sorrow.

JOHN GLAZIER'S MEMORY.

A Clerk in the Lake Shore Freight Office

Does Some Tall Remembering and Knocks Out the Other Local Clerks.

People are born in this vale of tears with varying predominant qualities. Some have an acute ear for musical sounds, and can on hearing an opera go home and play it through almost without a mistake; some have a remarkable power of interpreting the human emotions; some have the proper knack with the brush and become great artists. These are all gifts in a measure. There is an old man who presides over the hat rack in an eastern hotel, who can remember the hats belonging to a dining room full of men and hands them their tiles without a mistake as they finish their dinner. He has done it for years, and although various traps have been laid for him he never falls into any of them and is a phenomenon in his way.

But talking about remarkable memories, the feats of John Glazier, a young man who used to hold down a desk in the Lake Shore freight office in this city, stand out from all others as examples of a retentive memory almost unparalleled.

John's exterior gave no promise of his wonderful powers.

He had an abnormally large head, topped with a shock of red hair, and his boastings around the office were laughed at by the other clerks, who "winked the other eye" when John and his tales were on tap. He took no notice of these guyings, but stuck to it that he had a memory as long as the proverbial Irish mile, and one day he was put to the test. Every one expected him to fail ignominiously, but John fooled them; he didn't.

A freight train had just pulled in the yard and John was to go out and look at the number and weight of each car, of which there were about 50. He did so, walked leisurely back to the office, sat down, took up a pen and dashed off weights and car numbers correct to a dot of the whole train. The eyes of the other clerks bulged out like a crab's; they had to acknowledge John's power. He repeated the performance many times after that, being closely watched that he might not resort to some scheme or other, but he always performed the task with seeming ease and nonplussed his observers.

Mrs. Mary Miles, of Williams county, is visiting with her sister, Mrs. Poll, of South Swan Creek.

"Now is the winter of our discontent made glorious summer" by Ayer's Sarsaparilla. This wonderful medicine so invigorates the system and enriches the blood that cold weather becomes positively enjoyable. Arctic explorers would do well to make a note of this.

KEEP YOUR HEAD CLEAN.

Keeping the head perfectly clean is a great aid to health. A distinguished physician, who has spent much of his time at quarantine, said that a person whose head was thoroughly washed every day rarely ever took contagious diseases, but when the hair was allowed to become dirty and matted it was hardly possible to escape infection.—Salem, (Mass.) Gazette.

A VERY COMMON WANT.

"Out of sorts," "distrait," "the blues," these are familiar appellatives for uncomfortable, undefinable sensations, accompanied with lassitude, nervousness, indigestion. Poverty of the blood, to remedy which an effective stomachic persistently used is the paramount need, is conclusive evidence that the system is insufficiently nourished because—and for no other cause where organic disease does not exist—the food is not assimilated. Reinforce the flagging energies of the stomach, reform an irregular condition of the bowels, keep up a healthful secretion of the bile with Hostetter's Stomach Bitters. For over thirty years this popular medicine has supplied the common want of the nervous invalid, the dyspeptic and of persons deficient in vitality, an efficient tonic. To its power of imparting strength is attributable its efficacy as a preventive of malaria and la grippe. Thoroughly effective is it too for rheumatism, kidney complaint and neuralgia.

BLOODY WAR IN KANSAS

County Seat Troubles Break Out Again.

A Mob Thirsting for the Gore of Judge Botkin.

Sheriff Dunn Riddled with Bullets—Troops Ordered to the Rescue—Much Excitement All Through the State.

Arkalon, Ks., Jan. 6.—Another bloody chapter has been added to the criminal history of southwestern Kansas. The county seat war between Woodsdale and Hughton has again resulted in bloodshed.

A plot to kill Judge Botkin, an opponent of the murdered leaders of the feud, was put into execution yesterday. It failed, and bullets intended for Judge Botkin ended the life of a deputy sheriff.

Three weeks ago Judge Botkin received information that a mob composed of members of the citizens' alliance of Woodsdale and Springfield would endeavor to assassinate him.

The information was furnished by a member of the conspiracy, who gave the names of all implicated in the plot. It was also stated that the judge would be fired upon at the head of a canyon, near Culvert's place, one mile southeast of Springfield.

Judge Botkin, Sheriff Dunn, and six deputy sheriffs held a meeting at the house of the judge, which is two miles due south of the head of the canyon. They decided to scout the country between the judge's house, and started from the house of the judge at 3:30 o'clock in the morning.

They came upon the mob, composed of about forty men with Winchesters, and a fight ensued. It lasted until daylight. Sheriff Dunn was literally riddled with bullets. All the other officers escaped and went to Springfield where they barricaded themselves in a private house.

The mob pursued them to the town. Shortly after the day had broken, Joe Laribee, court stenographer, was seen by the members of the judge's family, who all the time had been at home, approaching the house on a horse. The mob could also be seen in the distance. Laribee flanked the mob, and reaching the house, told the judge of the result of the battle and urged him to fly with his family to Arkalon.

Not long afterwards Mrs. H. B. Laribee, wife of an undertaker, also arrived at the house with a similar message from Deputy Sheriff Stein, cashier of the Arkalon State bank.

County Attorney J. K. Branchomp secured the body of Sheriff Dunn and brought it here. It will be sent to his family at Pratt, Ks.

In addition to the members of the citizens' alliance, who composed the mob, there were also half a dozen desperate characters from Grant county. All were under the leadership of John Stoffle, recently convicted in Judge Botkin's court of horse stealing. The case was appealed to the supreme court.

The instigators and principal movers in the conspiracy are Mrs. Margaret Wood, wife of the murdered man, Wood; John R. Garrison, of Garden City; A. R. Kilgore, C. S. Kilgore, O. S. Aubry of Woodsdale, B. J. Valvordes, C. L. Culvert and W. B. Orner of Springfield.

Judge Botkins has had detectives in the camp of the citizens' alliance of Woodsdale and Springfield the past three weeks, and has in his possession conclusive evidence. This afternoon Judge Humphreys received a telegram from Judge Botkin, dated Arkalon, urging the governor to send the adjutant-general with troops to Arkalon on a special train as quickly as possible.

Troops Ordered Out.

Topeka, Ks., Jan. 6.—The following dispatch was received this afternoon by Adjutant-General Roberts:

Independence, Ks., Jan. 5.

Col. A. N. Roberts, Adjutant General—Take a company of men and go to the scene of the trouble in Steward county, at once. If more force seems necessary, as events develop, order it to your call. Make all arrangements necessary for transportation and supplies. You will use the military to preserve peace and to protect life and property where it is necessary to do so. I will leave for Topeka to-night. Communicate with me for further orders. Act judiciously, but firmly. It seems to me that more than one company will be necessary. (Signed)

LYMAN HUMPHREYS.

Immediately upon receipt of this message the adjutant-general wired to Col. Ricksecker to have company A of the First regiment meet the regular Rock Island train at Hutchinson to-morrow at 7 o'clock.

The adjutant-general left and will take personal charge of the military forces.

LINDSAY WILL DECLINE.

He Cannot Afford to Give Up His Lucrative Practice.

Frankfort, Ky., Jan. 6.—Judge Lindsay, yesterday appointed inter state commerce commissioner, said last evening: "I cannot say at this time that I will accept. The appointment is to fill an unexpired term and I do not think it would pay me to give up my home and law practice for the position. I will consult my family's wishes before deciding on my course.

Judge Lindsay's friends believe he will decline the appointment.

England Will Not Force Us to Fight.

Baden-Powell on His Way to This Country to Settle All Bering Sea Difficulties.

Liverpool, Jan. 6.—Sir George Smyth Baden-Powell, M. P., the British Bering sea commissioner, starts for Washington on Saturday next.

The British commissioner in an address, which he made last night, said that England and the United States had agreed upon a basis for a settlement of the Bering sea difficulties and that he hoped that the matter would be brought to a satisfactory conclusion.

Sir George Baden-Powell added that he hoped, before the world's fair in Chicago opened, to see a line of fast passenger steamers running between England and Canada and that this line would have a good share of the travel the fair would promote between the old world and the

CAN'T CARRY DYNAMITE.

A Bill Intended to Head Off the Murderous Cranks.

Washington, Jan. 6.—The recent attempts and threats of attempts against the lives of prominent people by cranks who have secured dynamite with which to blow up their intended victims led Representative McCreary, of Kentucky, to introduce a bill to regulate the sale of dynamite and other high explosives.

Mr. McCreary says that it may not be perfect in all its details, but that it affords the basis for necessary legislation. The bill makes it a felony for any person to have explosives in his possession for inlawful purposes, and provides that they shall be bought, sold, manufactured, etc., only by a permit from a designated official.

LASALLE & KOCH.

HER BABE A SACRIFICE.

Crushed to Death by Its Crazed Mother.

A Religious Maniac Commits an Awful Deed on the Steps of the Polish Church in Pittsburg.

Pittsburg, Jan. 6.—"As a sacrifice I offer thee!" exclaimed a religious-crazed mother as she hurled her babe from the Polish church steps to the stone pavement below. The little one's injuries are fatal and the insane mother is in prison.

The woman's screams attracted Officer Hughes' attention, and running to the spot he saw a woman frantically endeavoring to gain an entrance to the church at Twenty-first and Smallman streets. She was kicking at the door and beating it with her fists. All the while she kept up a continuous cry for admittance, in broken English, imploring the priest to open the door and let her in.

As she saw the approaching officer she suddenly, with the opening exclamation, raised her 8-months-old babe high in the air, and then with terrible force hurled it at her feet on the brick pavement, where it lay bleeding.

She stooped and picked it up again and was about to repeat the act when the officer grappled with the half-crazed woman and prevented her from carrying out her purpose. After a hard struggle she was overpowered and mother and child were removed to the West Penn hospital, where the child's injuries were pronounced fatal.

The woman's name is Mrs. Frances Moncouski. Her husband said that for some time his wife had been in bad health and that her mind was deranged over religion. About 1 o'clock this morning the husband awoke and found his wife and babe missing. He feared something was wrong and immediately instituted a search.

When picked up by the officer the woman was only about half clad. Her hair hung down over her shoulders and both she and the child, which was wrapped in an old shawl, were wet to the skin. She will be held to await a further investigation of her condition.

A GREAT CLEARING SALE OF CLOAKS

A GOWN AND GAITER.

All heavy-wool cloths for gowns, cloaks or jackets should be sponged before cutting. This prevents shrinking in damp weather and the showing of spots of water. To sponge cloths, cotton cloths, preferably pieces of sheets, are wrung out in cold water and spread smoothly on the right side of the goods till it is entirely covered. The goods themselves are then rolled up and left 24 hours with the damp cloth in them. Care should be taken that the damp cotton is free from wrinkles and that the rolling is even, else the wrinkles will print themselves in the woolen cloth, and are difficult to remove.

An excellent preventive for colds in these windy months has been designed for women. It is a gaiter of leather or Jersey cloth which fits over the shoe just as the ordinary gaiter, but is long enough to reach some distance above the knee.

PLACED IN HIS GRAVE.

The Funeral of General M. C. Meigs.

The Remains Placed by the Side of Those of His Wife in Beautiful Arlington Cemetery.

Washington, Jan. 6.—The funeral of the late Gen. M. C. Meigs took place yesterday. The weather was very unfavorable and the streets were in bad condition.

Under a military escort, the remains were taken from the general's late residence on Vermont avenue to St. John's Episcopal church, where the funeral services were conducted by its rector, the Rev. Dr. Douglass.

He paid a brief but glowing tribute to Gen. Meigs' personal qualities.

The pall-bearers were Generals Schofield, Casey, Holabird, Wright, Col. Vincent, Col. Luddington, Prof. Langley and Dr. Wellington.

At the conclusion of the services at the church the casket was lifted to the hearse by the militia and wended its way to Arlington cemetery. The horses had great difficulty in keeping their feet owing to a light rain subsequent to a fall of snow.

Arriving at the cemetery the remains were interred beside those of his wife. At the grave military ceremonies were conducted, concluding with the bugle call "Lights Out," and the mourners returned to the city.

San Francisco, Jan. 6.—The United States steamer Baltimore has arrived from Chili.

A FIVE-YEAR TERM.

Washington, Jan. 6.—Representative Pattison, of Ohio, has introduced a joint resolution amending the constitution by making the presidential term five years and declaring the incumbent ineligible for re-election.

HEALTHY. HAPPY. WHY?

Is he a bright child? Does he look healthy and happy? He is bright, and he is both healthy and happy. He is the little son of Mrs. Henry T. Bowers, wife of the well-known contractor and builder, who resides in Dorchester avenue, South Boston. Mrs. Bowers has had quite an experience with her children, which experience we give in her own words, as follows:

"I have a little boy two and one-half years of age, the perfect picture of rugged health, and also a little girl of four. I attribute their good health and good temper to the use of Dr. Hand's Remedies.

I have used, as occasion required, the entire line, and have had very marked results from the Colic Cure, Cough and Croup Medicine, and the Pleasant Physic. I have never had any but good result from the use of any of them."

No mother would make a statement like the above unless she knew wholly whereof she affirmed.

Consultation and Examination Free and Strictly Confidential in the Private Parlor of the Burnett House from 10 a. m. to 9 p. m., one day only.

The Doctors describe the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. Their diagnostic powers have created wonders throughout the country.

The France Medical and Surgical Institute of Columbus, Ohio, is the only Medical Institute in the State Incorporated with a Capital of $300,000.00.

FRANCE MEDICAL AND SURGICAL INSTITUTE,

38 & 40 W. Gay St., one block N. of State House, Columbus, O. Incorporated, 1886. Capital, $300,000.

DRS. FRANCE AND OTTMAN, of New York, the well known and successful Specialists in Chronic Diseases and Diseases of the Eye and Ear, on account of their large practice in Ohio, have established the FRANCE MEDICAL INSTITUTE, where all forms of Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific principles. They are ably assisted by a full corps of eminent Physicians and Surgeons, each one being a well known specialist in his profession.

CANCER positively cured without pain or use of the knife, by a new method.

IMPORTANT TO LADIES.—DR. FRANCE, after years of experience, has discovered the greatest cure known for all diseases peculiar to the sex. Female diseases positively cured by the new remedy, OLIVE BLOSSOM. The cure is effected by home treatment. Entirely harmless and easily applied. Consultation Free and Strictly Confidential. Correspondence promptly answered.

YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DRS. FRANCE AND OTTMAN, after years of experience, have discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, langnor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose, or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. Our method of treatment will speedily and permanently cure the most obstinate case, and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits, a ropy sediment will be found, or the color will be a thin or milkish hue. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

MARRIAGE.—Married persons, or young men contemplating marriage, aware of physical weakness, loss of procreative powers, impotency, or any other disqualification, speedily restored.

PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. Medicines sent free from observation to all parts of the United States.

EPILEPSY OR FITS—Positively cured by a new and never-failing method. Testimonials furnished.

FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine (that passed first in the morning preferred), which will receive a careful chemical and microscopical examination, and if requested a written analysis will be given.

Persons ruined in health by unlearned pretenders, who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately. Delays are dangerous.

WONDERFUL CURES Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail or express, but where possible, personal consultation is preferred. Curable cases guaranteed. No risk is incurred.

Cases and correspondence confidential. Treatment sent C. O. D. to any part of U. S. List of 130 questions free. Address, with postage, DR. FRANCE, Nos. 38 and 40 W. Gay St., Columbus, O.

A FREE COINAGE LAW.

It Is Now on the United States Statutes.

Sensational Resolution by Mr. Stewart.

Chicago Wants a Four Million Dollar Public Building — General Washington Gossip.

Washington, Jan. 6.—Senator Stewart has introduced the following resolution:

"Whereas, By the 14th section of the act approved January 18, 1837, it is provided 'that gold and silver bullion brought to the mint for coinage, shall be received and coined, by the proper officers, for the benefit of the depository,' and

"Whereas, By the act approved February 28, 1878, entitled, 'An act to authorize the coinage of the standard silver dollar, and to restore its legal tender character,' it is enacted 'That there shall be coined, at several mints of the United States, silver dollars of the weight of 412 1-2 grains troy of standard silver, as provided in the act of January 18, 1837, on which shall be the devices and superscriptions provided in said act.'

"Therefore, Be it Resolved, that the committee on the judiciary be, and it is hereby instructed to inquire if any further legislation is necessary to make it the duty of the proper officers of the mint to receive and coin silver bullion for the benefit of depositors."

Senator Stewart was asked by a United Press representative what was the meaning of his resolution.

"It is provided in the act of 1837," said the senator, "that gold and silver bullion brought to the mint for coinage shall be received and coined, by the proper officers, for the benefit of the depositor. There is no other mode nor manner provided for coinage in that act.

"The Bland act of 1878, entitled 'an act to authorize the coinage of the standard silver dollar, and to restore its legal tender character,' revives the law of 1837 relating to the coinage of silver bullion for the benefit of the depositor.

"It declares 'that there shall be coined, at the several mints of the United States, silver dollars of the weight of 412 1-2 grains troy of standard silver, as provided in the act of January 18, 1837, on which shall be the device and superscriptions provided in said act.'

"The requirement that the officers of the mint shall coin silver bullion for depositors, as provided in the act of 1837, is unequivocal. That act makes it their duty to do so. The act of 1837 also prescribes the devices and superscriptions to be impressed upon the silver dollar.

"The officers of the mint did not hesitate to follow that act as to such devices and superscriptions. Why they have not received and coined silver as prescribed in the act remains a mystery. The omission to enforce this provision of law is unaccountable. It appears to have been overlooked by all parties.

"I myself have hesitated to call attention to this law, fearing there might be some other provision repealing, suspending or qualifying it. But at the suggestion of Mr. E. D. Stark, a lawyer of Ohio, I have examined the question with as much care as my time would permit and fail to find any repeal or modification of the act.

"The fact that the act of 1878 requires the purchase and coinage of silver by the secretary of the treasury does not modify the preceding requirement that he shall also coin for depositors.

"But before asserting on my own responsibility that the law makes no discrimination as to coinage between gold and silver, I thought it best to submit the question to the judiciary committee.

"I shall be surprised if they do not find that as a matter of law it is the duty of officers of the mint to coin silver bullion into standard dollars, at the ratio of 16 to one for the benefit of depositors."

A bill appropriating $300,000 for a public building at Kansas City, Ks., was introduced in the senate by Senator Peffer.

Mr. Peffer also introduced a bill to prohibit dealing in options and futures and the formation of trusts and combinations and to punish conspiracies against freedom of trade.

The bill declares every article in common and general use among the people of the several states to be articles of inter-state commerce and it is provided that they may be carried from place to place within the United States and be sold or dealt in without interference by any person or combination with the proviso that in any state where the manufacture or sale of any article is prohibited that article shall not be carried into the state for sale, nor be sold in that state.

One section makes it a felony punishable by imprisonment and hard labor for not exceeding ten years nor less than two, to in any way interfere with the freedom of transit of articles of interstate commerce or to have the effect of influencing prices by raising or lowering them.

Parties to combinations are made liable to imprisonment for felony for not more than ten nor less than two years, and dealers in futures, options and corners are made liable to the same punishment.

A bill appropriating $4,000,000 for the erection of a public building in Chicago was introduced in the house by Mr. Hitt, of Illinois, for Mr. Abner Taylor, of that state. The building is to be erected on the site of the present postoffice and is to be used as a postoffice, federal court house, sub-treasury, custom house, and for other necessary federal offices not provided for. It is to be so constructed as to occupy all the available area of the present site to the street lines on all sides, and all the material of the old building is to be used in the new one so far as practicable.

The following bills have been introduced in the house:

By Mr. Johnson, of Ohio (by request)—To create a home for crippled, infirm and aged seamen, of the merchant marine service. The appropriation is to be designated by the secretary of the navy.

By Mr. Randall, of Massachusetts—To establish a life saving station at Gay Head, Mass., the cost not to exceed $10,000.

By Mr. Clarke, of Alabama—To provide for the free collection and delivery of mail in rural districts, with an appropriation not to exceed $2,000,000 to meet the deficiency in the postal revenues.

By Mr. Breckinridge, of Arkansas—To provide for the admission of the Indian Territory into the union as a state.

By Mr. Peel—For the relief of the Mo-Ko-Ho-Co band of Sac and Fox Indians of the Mississippi: also providing for the payment of awards made to Creek Indians who enlisted in the federal army, loyal refugees and freedmen.

By Mr. Townsend, of Colorado—To change the boundaries of the Uncompahgree reservation.

In the senate yesterday the interstate commerce commission's report, dated December 1, was submitted. In their annual report the commissioners say there has been a marked improvement during the past year in the disposition of carriers towards compliance with the law.

Infractions of its provisions are less frequent as respects unjust discriminations, unreasonable advantages, favoring particular persons, places, or kinds of business; but as regards the duty of establishing and publishing rates and charges little progress has been made.

A mode of procedure before the commission and in the courts to enforce the commission's orders is recommended; a leading feature of which is that the hearing in court as to all matters not requiring jury trials, shall be confined to the record of precedence had before the commission, and to such errors in the record as shall be specifically pointed out by parties alleging errors therein.

Under the head of "Uniform Classification" is reviewed in some detail the action of the carriers on this subject since the enactment of the interstate commerce law.

It is shown by the deliberate statement of experts in the employment of the carriers that a much nearer approach to uniformity than now exists is practicable, without danger of serious detriment to the interests involved. Definite action by carriers is therefore recommended looking to compel the carriers to adopt a uniform classification.

In a chapter treating of the use of shippers cars by carriers several illustrations are given showing how carriers have sought, sometimes openly and sometimes covertly, to effect discriminations between their customers, contrary to the intent and spirit of the law.

Under the head of "connecting lines" the question of legislative power to compel connecting carriers to grant facilities is discussed at length; the conclusion being that the subject is a proper one for legislative action.

In connection with the question of risk as affecting rates the liability of the carrier is discussed. The proposed uniform bill of lading and the objections of the shipping interests thereto are also discussed, and some of its features, especially the provision that property taken at carrier's risk shall be rated one class higher than if taken at owner's risk, are disapproved.

In conclusion the commission calls attention to various amendments to the law heretofore suspended, and specifically recommends now:

1. That some time be fixed within which carriers shall be required to adopt uniform classification of freights.

2. That the 10th section of the act shall be so amended that corporations as well as their employes and agents shall be indictable.

3. To amend the sections of the act in relation to procedure as suggested in the report.

The appendices contain, among other papers, articles upon methods of carriers in the matter of construction, publication, and filing of rate schedules, heating of passenger coaches, and safety appliances; also digest of the decisions of the commission since its organization.

THE IDEAL KINDERGARTNER.

Long ago, when I was first beginning kindergarten work, and when all its possibilities were rising before me, "up, up from glory to glory"—long ago, I was asked in a written examination to give what I considered the qualifications of an ideal kindergartner.

My answer was as follows—brief perhaps, but certainly comprehensive:

The Music of St. Cecilia.
The Art of Raphael.
The Dramatic genius of Rachel.
The Administrative ability of Cromwell.
The Wisdom of Solomon.
The Meekness of Moses, and—
The Patience of Job.

Twelve years' experience in the kindergarten has not lowered my ideals one whit.—Babyhood.

All alone, both in the way it acts, and in the way it's sold, is Doctor Pierce's Favorite Prescription for women.

It acts in this way:

If you're weak or "run-down," it builds you up; if you suffer from any of the painful disorders and derangements peculiar to your sex, it relieves and cures. It improves digestion, enriches the blood, dispels aches and pains, brings refreshing sleep, and restores flesh and strength. For all functional weaknesses and irregularities, it's a positive remedy. Hence, it's sold in this way:

It's *guaranteed* to give satisfaction, in every case, or the money paid for it is refunded.

Dr. Pierce's Pleasant Pellets prevent and cure Sick and Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels.

They're the smallest, the cheapest, the easiest to take.

But all that would be nothing, if they weren't also the *best* to take.

AFTER TALTON HALL.

A Mob Would Liked to Have Lynched Him.

When They Discovered That He Had Been Spirited Away They Burned the Jail in Their Rage.

Nashville, Tenn., Jan. 6.—Talton Hall, who has killed many persons in cold blood, was removed from Gladesville jail yesterday to save his neck. A mob organized and would have hung him. They advanced on the jail and were so wild over his removal that they set fire to the structure. Hill was removed to Wizona in a close-covered wagon. The people of that section are very angry.

GRATEFUL—COMFORTING. EPPS'S COCOA BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette. Made simply with boiling water or milk. Sold only in half-pound tins, by grocers, labelled thus: James Epps & Co. Homœopathic Chemists, LONDON, ENGLAND.

EVERY CITIZEN OF NEW YORK

Interested in the "Empire State Express."

Regarding the new fast train service of the New York Central, which now surpasses that of any other railroad in the world, the New York Herald in its issue of October 27, 1891, prints the following important editorial:

Fastest Train in the World.

The "Empire State Express" made its maiden trip yesterday with gratifying success.

Its schedule time from this city to Buffalo, 440 miles, is 8 hours and 40 minutes. It ran into Buffalo less than two minutes late. The average speed was more than fifty-two miles an hour. Here and there the train forged ahead at the rate of 70 miles an hour.

The New York Central is to be congratulated for giving the public the fastest train in the world. It is an event in the annals of railway travel.

Like all other advance movements it is doubtless destined to be followed by other companies. In due time we may expect these flyers to become as common as the "limited" trains now are.

TWELFTH NIGHT.

The Twelfth Night custom still prevails in Brittany, which is worth mentioning for the little touch of the pathetic which mingles with its absurdity. It has no counterpart in the islands, unless it may possibly survive in some corners of Wales. When the Twelfth Night cake is cut a portion is set apart for each living member of the family, whether present or not. The slices designed for the absent ones are carefully preserved, and inspected from time to time. Their condition is believed to indicate the health of those for whom they have been set apart. If the cake is sound and keeps well, no fears are entertained for the safety of the absent ones, but if it decays the gravest apprehensions are aroused. Amongst a peasantry who are very generally ignorant of reading and writing, it may be judged what importance attaches to this singular substitute for correspondence.—Saturday Evening Post.

DRESS GOODS, BLACK GOODS, CLOAKS, SHAWLS | A deep cut to reduce stock. We will make very low prices in every department. Cost not taken into account on many things.

OLD-TIME COUNTERFEITERS.

We have in our possession a spurious copper cent, dated 1819. Near the place where the copper was picked up a boy found a very base counterfeit half-dollar. At no great distance from the locality where the coins were found a hunter discovered in a deep, lonely gorge in the mountains a small, but well-constructed furnace which had been evidently used by a gang of counterfeiters in the early setting of the country.—Ducktown, (Tenn. Reporter.

A WONDERFUL VASE.

In the cathedral of Genoa is preserved, and has been for 600 years, a vase of immense value. It is cut from a single emerald. Its principal diameter is twelve and a half inches and its height five and three-fourths inches. It is kept under several locks, the keys of which are in different hands, and it is rarely exhibited in public, and only by an order of the senate. When exhibited it is suspended around the neck of a priest by a cord, and no one is allowed to touch it but him. A decree passed in 1476 forbids anyone going too near the precious relic. A Genoese antiquarian has written a book to demonstrate that this vase is one of the gifts made to Solomon by the Queen of Sheba.—New Orleans Times-Democrat.
